Meat Market.

### WISCONSIN CREW DANGEROUS.

Some Enthusiasts Claim Westerners  
Will Win Varsity Race.

Poughkeepsie, N. Y., June 28.—Uncertainty as to the result is the feeling here on the eve of the contest for the rowing supremacy between the college crews of the University of Pennsylvania, Columbia, Georgetown, Cornell, Wisconsin and Syracuse. Changes in the various boats have been so frequent that it has been difficult to compare the respective "varsity" crews. Coach Courtney of Cornell has had the most trying experience in this particular and despite the fact that two of his men are to row in two races he expresses an ever abiding faith in the hardy men he has prepared for the struggle. Fine weather and good water are indicated for the races today and the coaches seem well satisfied with the condition of every man who will start.

There is plenty of Cornell money offered that her crews will finish first in all three events.

Wisconsin stands next to Cornell in the betting, and in distinction from other years there are some enthusiasts who are willing to wager that the Westerners will win the "varsity" race. The Wisconsin have ever been a disturbing element for Cornell and Coach Courtney for the past three years has kept his eye on them to the exclusion of all other crews.

### RESULT OF FAMILY QUARREL.

Ohio Man Shot and Killed by His Step-daughter's Husband.

Cleveland, June 28.—John B. Stewart, fifty-three years old, was shot and instantly killed by the husband of his stepdaughter, Samuel Peck, twenty-four years old, at their home in Col. inwood last night. The crime was the outcome of a family quarrel in which Peck attempted to act as peacemaker and was ejected from Stewart's rooms for so doing.

### JAPANESE ARMY ADVANCING.

Kuroki's Force Expects a Battle at Maotienling Pass.

General Kuroki's Headquarters in the Field, June 28.—The Japanese have advanced for two days and a battle is expected near Maotienling pass, where the Russians are entrenched. A Russian outpost of 300 retreated before the Japanese and several Russians were captured. The Japanese army is in splendid condition. The Chinese are welcoming the Japanese occupation. The weather is perfect.

## MAY CUT OFF RETREAT

JAPANESE ARMIES MAY ISOLATE  
FORCES UNDER GENERAL  
KUROPATKIN.

## OCCUPY THE MAOTIEN PASS

KUROKI'S SOLDIERS DRIVE THE  
RUSSIANS FROM AN IMPOR-  
TANT POSITION.

Newchwang, June 28.—General Kuropatkin not only may find himself unable to prevent the retreating Port Arthur relief column under General Stakelberg from being cut off from his main army, but in a few hours the whole Russian force possibly will be blocked from retreating on Mukden by the cutting of its line of communications at Liaoyang, for Sunday one of General Kuroki's columns broke the Russian defense in the mountains east of Liaoyang and occupied the important Maotien pass. The Japanese took the pass with little loss, after driving back the Russians along the main military road from Fungwang to Liaoyang.

The Japanese now command the mountain roads leading to the peninsula railway at Liaoyang, and it is expected that they will soon be close to that city.

### GREAT BATTLE IMMINENT.

Three Hundred Thousand Men Ready  
For the Fray.

St. Petersburg, June 28.—Lieutenant General Sakharoff's dispatch received Monday night confirms the belief that the great decisive battle of the campaign between General Kuropatkin's main army and the armies of Generals Kuroki and Oku is imminent. The three armies probably aggregate 300,000 men and their outposts are today in touch all along the line. The Japanese evidently tried to draw the Kuropatkin as far south as possible, holding out as an incentive a check to the advance of Oku's main army. Meantime Oku swung sharply to the eastward to join Kuroki toward the Chapian pass, Kuroki at the same time moving a strong force by the right flank toward Haicheng.

The main Japanese advance continues along the main Fengwangcheng-Liaoyang road, avoiding the Maotien pass by a detour to the northward. The advance in all points is being attended by constant skirmishing.

Nothing is known here of the exact point at which Kuropatkin's main force is concentrated, though it is believed that a large part of the Liaoyang force has been moved to a point between Kinchau and Tashichiao.

According to a press dispatch from Tashichiao Monday, a large force has been pushed southward from Tashichiao against Oku. While Kuropatkin is thus extending himself, the Japanese with great mobility seem to be trying to concentrate for the purpose of striking the Russians in the flank and rear.

### BRITISH STEAMER CONDEMNED.

Vessel and Valuable Cargo Confiscated  
by the Russians.

Vladivostok, June 28.—The prize court has condemned the British steamer Allanton, captured by the Russian Vladivostok squadron recently in the straits of Korea, for carrying contraband of war, and has confiscated the ship and her cargo of 6,500 tons of anthracite coal, valued at \$500,000. The firm at Singapore to which the coal was consigned is the same concern that supplied Japan with contraband during the Japanese-Chinese war. The Japanese schooner captured by the Russian torpedo boats at the time of the recent raid has also been condemned. The captains of the prizes are allowed a month in which to appeal.

### SQUADRON MAY BE AT SEA.

Vladivostok Vessels Probably Making  
Another Raid.

St. Petersburg, June 28.—There is a belief that the Vladivostok squadron put to sea Saturday and is liable to be next heard of in the Korean straits.

A Russian correspondent at Vladivostok says that Admiral Skrydloff's squadron will probably be unable to go out again for weeks, as the ships had to go into drydock for the purpose of thoroughly overhauling their boilers and cleaning their hulls preparatory to meeting the Baltic squadron. Some of the torpedo boats have been battered by the storm during the last expedition to the Japanese coast. Nothing has been heard of Admiral Kamimura's squadron.

### JAP CRUISER AGROUND.

Seriously Damaged by Colliding With  
a Transport.

London, June 28.—The Standard's Chefoo correspondent says that a steamer just arrived from Moji reports that she saw the Japanese transport Sado, which the Russian Vladivostok squadron in its recent raid torpedoed and which drifted away from sight during a squall, being towed to port. The vessel was beached and a cruiser sent to assist her also grounded. Two transports were then sent out to help the vessels, but one collided with the cruiser, damaging her seriously. The name of the cruiser was unknown to the officers of the steamer.

London, June 28.—The Standard's Chefoo correspondent says that a steamer just arrived from Moji reports that she saw the Japanese transport Sado, which the Russian Vladivostok squadron in its recent raid torpedoed and which drifted away from sight during a squall, being towed to port. The vessel was beached and a cruiser sent to assist her also grounded. Two transports were then sent out to help the vessels, but one collided with the cruiser, damaging her seriously. The name of the cruiser was unknown to the officers of the steamer.

### WAITING FOR MORE DETAILS.

Russians Anxious to Know About Battle Off Port Arthur.

St. Petersburg, June 28.—Viceroy Alexieff's message with the brief dispatch from Rear Admiral Witthoft, naval commander at Port Arthur, throws little additional light on the sea fight off Port Arthur. The admiralty and the emperor are awaiting further details with the same eagerness as the general public. The latter Monday for the first time received information through the medium of foreign telegrams that a fight had occurred.

The loss of three vessels of the Port Arthur fleet is admitted to be a severe blow, especially if not purchased by greater loss to the Japanese than reported by Vice Admiral Togo.

The meagerness of the reports is greatly mystifying the authorities who continue to believe that there has been a later fight which has not yet been reported.

In the absence of further information the admiralty is not disposed to criticize, though it is admitted to have been unfortunate for the squadron at such a critical time that its commander should have been an officer like Witthoft, who, though personally a brave sailor, never before flew his flag over a separate squadron. It is pointed out that he could not have been forced to go out of Port Arthur, as the situation there is not by any means desperate. If he fought his way back through the investing fleet, it was because one of his patched up ships had been broken down or for some other urgent reason.

He arrived at the outer harbor at night and apparently did not want to go to the inner roadstead, because the narrowness of the channel made night navigation dangerous, or possibly because one of his ships stranded at the entrance to the channel. Nothing else could account for his remaining in the outer roadstead, where he would be exposed to the attack of the Japanese torpedo boats at night.

### SORTIE OF RUSSIAN SQUADRON.

Preceded by Prolonged Work in Destroying Jap Mines.

St. Petersburg, June 28.—Emperor Nicholas has received the following telegram from Viceroy Alexieff, dated June 27:

"According to reports received from Rear Admiral Witthoft and Rear Admiral Grigorivitch, dated respectively on June 26 and June 23, the sortie of the Port Arthur squadron was preceded by prolonged work in destroying the enemy's mines by means of nets carried on all ships' boats and on the harbor dredging flotilla.

"On the night of June 22-23 a fight occurred off Port Arthur between our torpedo boats and the Japanese torpedo boats in which Captain Blisioff and Lieutenant Smirneff were slightly wounded.

"At 2 o'clock in the afternoon our squadron put to sea, when eleven Japanese ships and twenty-two torpedo boats were visible on the horizon."

### POLTAVA THE VICTIM

RUSSIAN BATTLESHIP SUNK BY  
THE JAPANESE IN FIGHT  
OFF PORT ARTHUR.

Tokio, June 28.—The Russian battleship sunk Thursday by Togo's fleet was the Poltava. The Japanese rescued most of the crew.

### SAKHAROFF MAKES REPORT.

Tells of Various Movements of the  
Japanese Forces.

St. Petersburg, June 28.—The general staff has received a long dispatch from General Sakharoff, dated June 26. It says there is reason to suppose that a considerable force of the enemy proceeded from Wangtsia station in the direction of the mountains, marching northward toward the Chapian pass, and that the Japanese were beginning to move along the northern Siuyen-Kaichou road from Toutakau for the Weiha pass.

On June 25, the dispatch says, a battalion of Japanese infantry advanced along the Liaoyang main road, but was stopped for a time by the Russian sharpshooters, but the Russians were forced to retire with a loss of five men and one officer wounded.

On June 25 about a battalion of Japanese infantry marching out from Tungputze along the road to the Maotien pass, was repulsed by two companies of Russian sharpshooters near Tafanku. The sharpshooters finally fell back, having two men killed, one officer and thirteen men wounded and three wounded stretcher bearers captured.

On June 26 the Japanese occupied Maotien pass, turning the Russian right, and at least a regiment of infantry, with artillery, was ordered to proceed along the main road to Liaoyang. This detachment reached Tidalva at 9 a. m. June 26.

In another short engagement the Russians lost 6 officers and 26 men killed and 53 men wounded, 7 seriously. The Japanese losses were considerable.

### South Dakota Man Killed.

Huron, S. D., June 28.—H. L. Hubbard shot and killed W. G. Cakebread Monday on a farm west of Huron. The farm was worked jointly by the men, and the shooting resulted from a quarrel over a piece of work.

### Notice.

Linnemann Bros. have moved their offices from the Bane block to the store of L. M. Koop in the Gruenhagen blk. tf

## LABORERS DROWNED

THIRTY-THREE OF THEM PERISH  
WHILE AT WORK IN AN ENOR-  
MOUS CONDUIT.

## WATER TURNED INTO PIPE

THE WORKMEN ARE UNABLE TO  
GET OUT OF THE MANHOLES  
AND ARE KILLED.

Kingston, Jamaica, June 28.—Thirty-three persons were killed by an accident which took place near Spanish Town, ten miles west of Kingston, Monday, in the main conduit of the West Indian Electric company, which operates the street cars from Kingston and the shareholders of which are principally Canadians. Nearly 100 laborers had been detailed to remove sand from the enormous pipe which is nearly a mile long and conveys water from the intake on the Rio Cobra to the turbines of the powerhouse. The work had practically been completed when orders were given to allow a small quantity of water to enter the conduit. Through misapprehension, accident or carelessness, the full force of water was turned on and a mad struggle to escape by means of the manholes ensued with the result that thirty-three persons were killed.

The tragedy has cast a gloom over the colony and a rigid investigation into the cause is now in progress.

### REPORT STILL UNCONFIRMED.

Body of Kent J. Loomis Said to Have  
Been Found in France.

Washington, June 28.—Mr. Loomis, the assistant secretary of state, has had nothing whatsoever to confirm or contradict the rumor that the body of his brother, Kent J. Loomis, had been washed ashore on the French coast near Cherbourg, and in spite of the energetic efforts of the combined foreign and consular service of the state department not the slightest clue has yet been obtained which refers to the mysterious disappearance. The fact that nothing has been heard regarding the missing man tends to confirm the fears of his family that he was either drowned or met foul play. The assistant secretary denies very emphatically a number of dispatches emanating from Parkersburg, W. Va., the home of his brother, which stated that the family of Kent J. Loomis had received word some days ago that he was having trouble with Mr. Ellis, with whom he was traveling. Mr. Ellis has sailed for Jibouti, where he commences his overland journey to Abyssinia's capital with the commercial treaty which he is to deliver to King Menelik.

### GRAY FAVORS CLEVELAND.

Second Choice of Delaware Jurist Is  
Judge Parker.

Philadelphia, June 28.—A special dispatch to the Philadelphia Record from Wilmington, Del., says: Judge George Gray Monday expressed his hope that former President Grover Cleveland would be nominated for the presidency by the St. Louis convention. Next to Grover Cleveland he favored Judge Parker for the nomination. When asked if his own resolution not to be a candidate had been changed by the instruction of the Delaware delegation in his favor and the recent endorsement of his candidacy by leaders in various states, the judge said:

"I have repeatedly stated I was not and will not be a candidate for the presidential nomination."

### EXPLOSION ON A WARSHIP.

Fifteen Men Killed on Board a French  
Cruiser.

San Francisco, June 28.—The steamer Mariposa, which came from Tahiti, brought a story of a boiler explosion on the French cruiser Durance resulting in the death of fifteen men. The explosion occurred while the warship was on her way to Noumea from Papeete and the last reports received by the French officials at Tahiti were to the effect that the warship had made Noumea and Captain Rozier, who was prostrated by the disaster, was sick on shore.

The Durance for a number of years has been stationed at Papeete.

### OYAMA STILL IN JAPAN.

Commander of Japanese Forces Will  
Leave for Manchuria July 6.

London, June 28.—The Standard's Tokio correspondent says Field Marshal Marquis Oyama, who recently was appointed commander-in-chief of the Japanese forces in Manchuria, and Lieutenant General Kodama, his chief of staff, will leave for Manchuria July 6.

"Not the least interesting revelation of the war," says the correspondent, "is the unexpected efficiency of the Japanese cavalry, which heretofore had been regarded as the weakest part of the army. Actual operations have proved that the Japanese cavalry are not only able to hold their own against Cossacks, but in several instances they have shown themselves superior, especially in hilly districts."

According to the same dispatch reports from Chinese sources say continuous firing was heard in the direction of Port Arthur from the afternoon of June 25 to the morning of June 26.

### THREE PERSONS KILLED.

Half a Dozen Others Injured by Ex-  
plosion of Fireworks.

Philadelphia, June 28.—Three persons lost their lives and a half a dozen others were injured late Monday as the result of the explosion of a small bundle of fireworks in the storeroom of the Diamond Fireworks company at No. 826 Arch street. The dead are: Jacob Jancovitch, O. Berman and Lena Simpson. The fireworks concern occupied the first floor of the building. The second floor was vacant and Jancovitch was the proprietor of the hat and bonnet concern on the third floor and Berman and Miss Simpson were his employees. These persons were the only ones above the first floor. Conway, one of the members of the firm of the fireworks company, was wrapping up a small bundle of fireworks for a customer when it exploded from some unknown cause. During the rescue three firemen were injured and three other persons were cut and burned, but their injuries were not considered serious.

The loss on buildings and stock is estimated at \$30,000.

### DRAWING IMMENSE AUDIENCES.

Congress of the Salvation Army Gets  
Much Attention in London.

London, June 28.—The international congress of the Salvation Army is drawing immense audiences and is receiving much attention from the newspapers.

The meetings Monday were devoted to "foreign war." General Booth reviewed the work of the Salvation Army in foreign countries and said that its flag now flies everywhere except Russia, which he hoped the Army would soon invade.

### MEETS A HORRIBLE DEATH.

Well Known Mining Man Killed by  
His Horse.

Leadville, Col., June 28.—Wallace Colby, fifty-four years old, a well known mining man, met a horrible death while driving last night. The horse stumbled and Colby was thrown forward under the horse's heels. His feet caught in the seat springs and in this manner he was dragged through the principal streets of the city. When the horse was finally stopped Colby was dead. His brains had been battered out by the animal's hoofs.

### FOR THE WORKING CLASSES.

The French Rothschilds Will Devote  
Millions to Parisians.

Paris, June 28.—Baron Alphonse, Edmond and Gustave de Rothschild, three of the chiefs of the Rothschild family, called upon M. Tronillet, the minister of commerce, Monday to inform him of their intention to give \$2,000,000 for the purpose of providing cheap and healthy dwellings for the Parisian working classes. The details of the scheme have not yet been given out, but it is announced that the profits arising from the rents of the proposed dwellings will be devoted to the amelioration of the condition of workmen.

### Grain Dealer Suicides.

Chicago, June 28.—Despondency over financial matters is believed to have caused Lee Miner, a stock and grain dealer from Miner, Ill., to commit suicide at the Empire hotel here.

## PRINCESS COFFEE

Why should farmers visit  
the St. Louis Fair?

Because the management of the Fair has been  
wise enough (for the first time in the history of  
expositions) to give the agricultural interests of  
the country the recognition they are entitled to.

In what way?

By devoting the largest building on the grounds  
to agriculture. An examination of the exhibits  
in this immense structure is as valuable as a  
post graduate course in farming. The Rock  
Island System is the line to take from St. Paul  
and Minneapolis to St. Louis. No changes.  
Best trains and best track. Exposition rates  
in effect daily, April 15 to November 30.

Tickets at offices of connecting  
lines or at

322 Nicollet Ave., Minneapolis;  
6th and Robert Sts., St. Paul.

W. L. HATHAWAY,  
Dist. Pass' Agt., Minneapolis.

In the absence of further information the admiralty is not disposed to criticize, though it is admitted to have been unfortunate for the squadron at such a critical time that its commander should have been an officer like Witthoft, who, though personally a brave sailor, never before flew his flag over a separate squadron. It is pointed out that he could not have been forced to go out of Port Arthur, as the situation there is not by any means desperate. If he fought his way back through the investing fleet, it was because one of his patched up ships had been broken down or for some other urgent reason.

He arrived at the outer harbor at night and apparently did not want to go to the inner roadstead, because the narrowness of the channel made night navigation dangerous, or possibly because one of his ships stranded at the entrance to the channel. Nothing else could account for his remaining in the outer roadstead, where he would be exposed to the attack of the Japanese torpedo boats at night.

### SORTIE OF RUSSIAN SQUADRON.

Preceded by Prolonged Work in Destroying Jap Mines.

St. Petersburg, June 28.—Emperor Nicholas has received the following telegram from Viceroy Alexieff, dated June 27:

"According to reports received from Rear Admiral Witthoft and Rear Admiral Grigorivitch, dated respectively on June 20 and June 23, the sortie of the Port Arthur squadron was preceded by prolonged work in destroying the enemy's mines by means of nets carried on all ships' boats and on the harbor dredging flotilla.

"On the night of June 22-23 a fight occurred off Port Arthur between our torpedo boats and the Japanese torpedo boats in which Captain Blisioff and Lieutenant Smirneff were slightly wounded.

"At 2 o'clock in the afternoon our squadron put to sea, when eleven Japanese ships and twenty-two torpedo boats were visible on the horizon."

### POLTAVA THE VICTIM

RUSSIAN BATTLESHIP SUNK BY THE JAPANESE IN FIGHT OFF PORT ARTHUR.

Tokio, June 28.—The Russian battleship sunk Thursday by Togo's fleet was the Poltava. The Japanese rescued most of the crew.

### SAKHAROFF MAKES REPORT.

Tells of Various Movements of the Japanese Forces.

St. Petersburg, June 28.—The general staff has received a long dispatch from General Sakharoff, dated June 26. It says there is reason to suppose that a considerable force of the enemy proceeded from Wangtsia station in the direction of the mountains, marching northward toward the Chapian pass, and that the Japanese were beginning to move along the northern Siuyen-Kaichou road from Toutakau for the Weita pass.

On June 25, the dispatch says, a battalion of Japanese infantry advanced along the Liaoyang main road, but was stopped for a time by the Russian sharpshooters, but the Russians were forced to retire with a loss of five men and one officer wounded.

On June 25 about a battalion of Japanese infantry marching out from Tungputze along the road to the Maotien pass, was repulsed by two companies of Russian sharpshooters near Tafangu. The sharpshooters finally fell back, having two men killed, one officer and thirteen men wounded and three wounded stretcher bearers captured.

On June 26 the Japanese occupied Maotien pass, turning the Russian right, and at least a regiment of infantry, with artillery, was ordered to proceed along the main road to Liaoyang. This detachment reached Tidiavala at 9 a. m. June 26.

In another short engagement the Russians lost 6 officers and 26 men killed and 53 men wounded, 7 seriously. The Japanese losses were considerable.

### South Dakota Man Killed.

Huron, S. D., June 28.—H. L. Hubbard shot and killed W. G. Cakebread Monday on a farm west of Huron. The farm was worked jointly by the men, and the shooting resulted from a quarrel over a piece of work.

### Notice.

Linnemann Bros. have moved their offices from the Bane block to the store of L. M. Koop in the Gruenhagen blk. tf

## LABORERS DROWNED

THIRTY-THREE OF THEM PERISH WHILE AT WORK IN AN ENORMOUS CONDUIT.

### WATER TURNED INTO PIPE

THE WORKMEN ARE UNABLE TO GET OUT OF THE MANHOLES AND ARE KILLED.

Kingston, Jamaica, June 28.—Thirty-three persons were killed by an accident which took place near Spanish Town, ten miles west of Kingston, Monday, in the main conduit of the West Indian Electric company, which operates the street cars from Kingston and the shareholders of which are principally Canadians. Nearly 100 laborers had been detailed to remove sand from the enormous pipe which is nearly a mile long and conveys water from the intake on the Rio Cobra to the turbines of the powerhouse. The work had practically been completed when orders were given to allow a small quantity of water to enter the conduit. Through misapprehension, accident or carelessness, the full force of water was turned on and a mad struggle to escape by means of the manholes ensued with the result that thirty-three persons were killed.

The tragedy has cast a gloom over the colony and a rigid investigation into the cause is now in progress.

### REPORT STILL UNCONFIRMED.

Body of Kent J. Loomis Said to Have Been Found in France.

Washington, June 28.—Mr. Loomis, the assistant secretary of state, has had nothing whatsoever to confirm or contradict the rumor that the body of his brother, Kent J. Loomis, had been washed ashore on the French coast near Cherbourg, and in spite of the energetic efforts of the combined foreign and consular service of the state department not the slightest clue has yet been obtained which refers to the mysterious disappearance. The fact that nothing has been heard regarding the missing man tends to confirm the fears of his family that he was either drowned or met foul play. The assistant secretary denies very emphatically a number of dispatches emanating from Parkersburg, W. Va., the home of his brother, which stated that the family of Kent J. Loomis had received word some days ago that he was having trouble with Mr. Ellis, with whom he was traveling. Mr. Ellis has sailed for Jibouti, where he commences his overland journey to Abyssinia's capital with the commercial treaty which he is to deliver to King Menelik.

### GRAY FAVORS CLEVELAND.

Second Choice of Delaware Jurist is Judge Parker.

Philadelphia, June 28.—A special dispatch to the Philadelphia Record from Wilmington, Del., says: Judge George Gray Monday expressed his hope that former President Grover Cleveland would be nominated for the presidency by the St. Louis convention. Next to Grover Cleveland he favored Judge Parker for the nomination. When asked if his own resolution not to be a candidate had been changed by the instruction of the Delaware delegation in his favor and the recent endorsement of his candidacy by leaders in various states, the judge said:

"I have repeatedly stated I was not and will not be a candidate for the presidential nomination."

### EXPLOSION ON A WARSHIP.

Fifteen Men Killed on Board a French Cruiser.

San Francisco, June 28.—The steamer Mariposa, which came from Tahiti, brought a story of a boiler explosion on the French cruiser Durance resulting in the death of fifteen men. The explosion occurred while the warship was on her way to Noumea from Papeete and the last reports received by the French officials at Tahiti were to the effect that the warship had made Noumea and Captain Rozier, who was prostrated by the disaster, was sick on shore.

The Durance for a number of years has been stationed at Papeete.

### OYAMA STILL IN JAPAN.

Commander of Japanese Forces Will Leave for Manchuria July 6.

London, June 28.—The Standard's Tokyo correspondent says Field Marshal Marquis Oyama, who recently was appointed commander-in-chief of the Japanese forces in Manchuria, and Lieutenant General Kodama, his chief of staff, will leave for Manchuria July 6.

"Not the least interesting revelation of the war," says the correspondent, "is the unexpected efficiency of the Japanese cavalry, which heretofore had been regarded as the weakest part of the army. Actual operations have proved that the Japanese cavalry are not only able to hold their own against Cossacks, but in several instances they have shown themselves superior, especially in hilly districts."

According to the same dispatch reports from Chinese sources say continuous firing was heard in the direction of Port Arthur from the afternoon of June 25 to the morning of June 26.

### THREE PERSONS KILLED.

Half a Dozen Others Injured by Explosion of Fireworks.

Philadelphia, June 28.—Three persons lost their lives and a half a dozen others were injured late Monday as the result of the explosion of a small bundle of fireworks in the storeroom of the Diamond Fireworks company at No. 826 Arch street. The dead are: Jacob Jancovitch, O. Berman and Lena Simpson. The fireworks concern occupied the first floor of the building. The second floor was vacant and Jancovitch was the proprietor of the hat and bonnet concern on the third floor and Berman and Miss Simpson were his employees. These persons were the only ones above the first floor. Conway, one of the members of the firm of the fireworks company, was wrapping up a small bundle of fireworks for a customer when it exploded from some unknown cause. During the rescue three firemen were injured and three other persons were cut and burned, but their injuries were not considered serious.

The loss on buildings and stock is estimated at \$30,000.

### DRAWING IMMENSE AUDIENCES.

Congress of the Salvation Army Gets Much Attention in London.

London, June 28.—The international congress of the Salvation Army is drawing immense audiences and is receiving much attention from the newspapers.

The meetings Monday were devoted to "foreign war." General Booth reviewed the work of the Salvation Army in foreign countries and said that its flag now flies everywhere except Russia, which he hoped the Army would soon invade.

### MEETS A HORRIBLE DEATH.

Well Known Mining Man Killed by His Horse.

Leadville, Col., June 28.—Wallace Colby, fifty-four years old, a well known mining man, met a horrible death while driving last night. The horse stumbled and Colby was thrown forward under the horse's heels. His feet caught in the seat springs and in this manner he was dragged through the principal streets of the city. When the horse was finally stopped Colby was dead. His brains had been battered out by the animal's hoofs.

### FOR THE WORKING CLASSES.

The French Rothschilds Will Devote Millions to Parisians.

Paris, June 28.—Barons Alphonse, Edmond and Gustave de Rothschild, three of the chiefs of the Rothschild family, called upon M. Trouillot, the minister of commerce, Monday to inform him of their intention to give \$2,000,000 for the purpose of providing cheap and healthy dwellings for the Parisian working classes. The details of the scheme have not yet been given out, but it is announced that the profits arising from the rents of the proposed dwellings will be devoted to the amelioration of the condition of workmen.

### Grain Dealer Suicides.

Chicago, June 28.—Despondency over financial matters is believed to have caused Lee Miner, a stock and grain dealer from Minier, Ill., to commit suicide at the Empire hotel here.

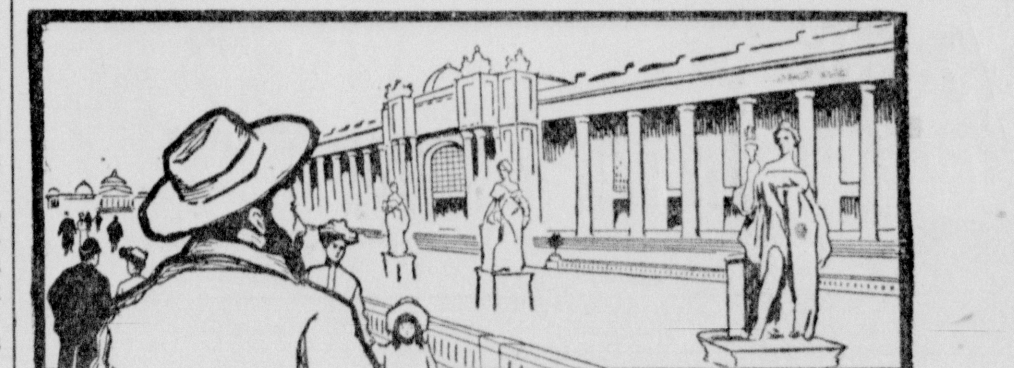

## PRINCESS COFFEE

Every Pound Guaranteed or Money Refunded.

Dykeman & Lukens.

Why should farmers visit the St. Louis Fair?

Because the management of the Fair has been wise enough (for the first time in the history of expositions) to give the agricultural interests of the country the recognition they are entitled to.

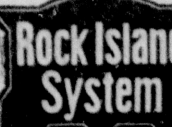

In what way?

By devoting the largest building on the grounds to agriculture. An examination of the exhibits in this immense structure is as valuable as a post graduate course in farming. The Rock Island System is the line to take from St. Paul and Minneapolis to St. Louis. No changes. Best trains and best track. Exposition rates in effect daily, April 15 to November 30.

Tickets at offices of connecting lines or at

322 Nicollet Ave., Minneapolis; 6th and Robert Sts., St. Paul.

W. L. HATHAWAY, Dist. Pass'r Agt., Minneapolis.

TUESDAY, JUNE 28, 1904.

Weather

Forecast—Fair and warmer.  
Temperature (Record kept by Dr. J. L. Camp from 7 a. m. yesterday morning to 7 p. m. this morning)—Maximum 64 above zero; minimum 48 above zero.

LOCAL NEWS NOTES.

Rev. A. Mattson left for the twin cities this afternoon.

Miss Hurley left yesterday afternoon noon for Cass Lake for a visit.

Mr. and Mrs. F. C. Holm left this afternoon for Eau Claire, Wis., for a visit.

A bouncing baby boy was born to Mr. and Mrs. W. J. Herremann this morning.

Mrs. Walter Davis and Miss Maude Davis left for the twin cities this afternoon.

W. T. Blakely returned from St. Paul this afternoon and left for Bemidji on the M. & I.

George Leisander, of Duluth, is in the city. He represents the Germania Life Ins. company.

Harry Patterson came in from Deerwood this afternoon to attend the county convention.

Miss Myrtle Feltus passed through the city this afternoon en route from Akeley to the twin cities.

The Ladies' Aid of the People's church will meet at Mrs. Merwin's, Fourth Ave. north, Wednesday afternoon. All ladies are invited to be present.

F. S. Parker left for St. Paul this afternoon on business.

Mr. and Mrs. J. M. Glunt leave the last of the week for Council Bluffs, Ia. Sheriff Haugen and Judge Harrison, of Aitkin, returned from the twin cities this afternoon.

Mrs. Matt Nuernberg, of St. Cloud, returned from the north today and left on No. 6 for her home.

Z. LeBlanc is engaged in putting down the walk in front of the Walverman and Grandelmyer blocks.

Mrs. Wahlen, of Duluth, arrived in the city this afternoon to attend the Dunn-Reilly wedding tomorrow morning.

Mr. and Mrs. M. T. Dunn, of LeRoy, Minn., arrived in the city last evening to attend the Dunn-Reilly wedding tomorrow morning.

Nathan Noile, postoffice inspector, is in the city today. He is here looking into the matter of putting on a new carrier for the free delivery system of this city.

Arrangements have been completed for a Fourth of July celebration at Little Falls. One of the principal events will be an Indian dance by braves and squaws from Mille Lacs.

The home of Mr. and Mrs. C. B. McCullough on Third street has been sold to C. M. Patek. This is one of the most beautiful homes in the city. The consideration was not given.

Word comes from Emily that during a recent electrical storm seven or eight cattle belonging to J. B. Atwater were killed by lightning. The cattle were standing under a tree which was struck by lightning.

The Highflyers refute the statement that the Mountaineer A. C. team ever beat them. They state that the Mountaineer A. C. team as they are called, were defeated by the Highflyers and add that they will have to go and get a reputation before challenging the whole world.

Mr. Harold Nelson, the Canadian actor, is having much trouble in his vacation period. His brother, a well known citizen of Boston, died a fortnight ago after a long illness, and last Friday his mother died in Toronto. Mr. Nelson had to abandon his trip to England. He is now in New York with his manager, Mr. C. P. Walker.—Manitoba Free Press.

BREAKS UP IN A ROW

SPECIAL TO THE DAILY DISPATCH:

St. Paul, Minn., June 28, 1904.—The Ramsey county republican convention broke up in a row while the vote for temporary chairman was being taken. Dunn adherents left the hall and held a separate convention claiming that they could not get fair play. The Collins supporters went ahead with what they term the regular convention, both sides claiming a majority of votes in the state convention.

P. R. Heard left for his home in St. Paul this afternoon after a pleasant visit in the city and at Parkerville with Clyde Parker.

J. M. Hannaford, vice president of the Northern Pacific, with a party of friends, went up north today on the M. & I. in a private car to do some fishing.

Mrs. Thos. Loftus and son, Miss McNeve, Mrs. Mike Cullen and Willie McGinnis, came in from Staples today to attend the Dunn-Reilly wedding tomorrow morning.

Mrs. George Bertram left for Aitkin this afternoon. She was joined by Mrs. McColl, of St. Paul, grand chief of the Rathbone sisters. A new lodge will be instituted at Aitkin this evening.

The ladies of St. Francis' church give their festival and bazaar this evening in the basement of the church. Ample provision has been made for light, in fact it will be about the only place in the city where a pleasant hour can be spent tonight.

Mothers lose their dread for "that terrible second summer" when they have Dr. Fowler's Extract of Wild Strawberry in the house. Nature's specific for bowel complaints of every sort.

Notice.

Having disposed of my grocery business, I have made arrangements for office at K. W. Lagerquist's, No. 322, Sixth St. south, and all parties indebted to me will please favor me with as large payment as possible. I wish to take this means of thanking all my friends for their patronage while I have been engaged in business and would respectfully commend them to the new proprietorship. K. W. Lagerquist, who will at all times be found reliable and who will always look to their best interests.  
15tf Mrs. CARRY LAGERQUIST.

Only one remedy in the world that will at once stop itchiness of the skin in any part of the body: Doan's Ointment. At any drug store, 50 cents.

No Lights.

There will be no lights in the city for a couple of days commencing Monday as the plant will undergo a thorough overhauling.

HE CLAIMS THEY WERE KIDNAPPED

George M. Kidd, of This City, Goes to the Twin Cities in Quest of Children

MOTHER SAID TO BE ABDUCTOR

Mr. Kidd Told Officials that Woman who Took Children was his Wife

The following is taken from the Little Falls Transcript:

"George M. Kidd, of Brainerd, was in the city Sunday morning and left on the limited for Minneapolis after interviewing Chief of Police Tourillotte. Mr. Kidd is the father of the two children who were kidnapped from the orphanage in this city Saturday, by a woman who is said to be their mother and who was accompanied by another woman. From the description of the woman given by the chief, Kidd stated that it was certainly the mother of the children. He further stated that his wife left him two years ago and that he placed the two children in the orphanage of the Franciscan Sisters of this city where they had been well cared for. Mr. Kidd said he did not have an order of the court allowing him the custody of the children and did not state whether or not a divorce had ever been granted. He has paid for the board of the children since they were placed in the orphanage and is evidently interested in their welfare. Judging by the talk of the women who abducted the children they are hardly the proper persons to have the little one in their charge. Mr. Kidd had placed the children in an institution where they would be well brought up, and we trust he will regain possession of them."

Save your rent money--See Nettleton, if

NEW HAND LAUNDRY

Is now in operation at 222, 5th street south by experienced Chinamen from Duluth. All kinds of goods washed and guaranteed. Shirts 10 cents, collars 2 for 5 etc, etc. 9c26

New line of shot guns and rifles at D. M. Clark & Co.

MUSIC AND DRAMA.

LILLIPUTIAN DRESS REHEARSAL.

Tomorrow morning at 10 o'clock the reserved sale for the performance, "Lilliputian Dress Rehearsal," will commence at H. P. Dunn & Co's, drug store. The seats are only 75 and 50 cents and they can be secured at Dunn's drug store now, but the sale will not open so that these seats may be reserved until tomorrow morning.

One of the last rehearsals was held yesterday afternoon at the opera house and the little folks were at their best. The music went with a snap yesterday that was encouraging to both Miss Barker and the members of the cast. It may be confidently stated now that the performance will be one of the most unique that has ever been given in the city and the little people should be greeted with a crowded house.

LITTLE PINE.

Mr. Rhodes and family attended a dance at Mud Brook the 17th.

Mr. G. S. Henderson moved his family to his homestead on section 10.

Some of the farmers are looking forward to a fine crop of potatoes.

The board of supervisors held a meeting at the clerks office June 25th.

Mr. Andrew Johnson has returned from Dakota, he reports plenty of work but small wages.

Mr. Kagel was elected delegate from this town to attend the republican county convention Brainerd.

Mr. Collison fell from a box while driving fence posts and was badly injured. The new doctor from Emily was called in and Mr. Collison is now up and around again.

PINE CONE.

BASE BALL NUBS

The Brainerd team will lineup against their old foes the St. Cloud team Sunday and Monday next, July 3 and 4. The games should draw large crowds. The St. Cloud team is not a professional team this year as it was last, but there are always a lot of good players in that city and they come to Brainerd with all confidence in the world of winning both games.

Brainerd has a second team now. A bunch of players outside the regular team have banded themselves together and they will be able to put up a real good game. They will be heard from later.

A harmless substance that annihilates all life destroying germs that afflict the human system. Strikes the roots and cures disease. That's what Hollister's Rocky Mountain Tea will do. 35 cents, tea or tablets. H. P. Dunn & Co.

## HE CLAIMS THEY WERE KIDNAPPED

George M. Kidd, of This City, Goes to the Twin Cities in Quest of Children

MOTHER SAID TO BE ABDUCTOR

Mr. Kidd Told Officials that Woman who Took Children was his Wife

The following is taken from the Little Falls Transcript:

"George M. Kidd, of Brainerd, was in the city Sunday morning and left on the limited for Minneapolis after interviewing Chief of Police Tourtellotte. Mr. Kidd is the father of the two children who were kidnapped from the orphanage in this city Saturday, by a woman who is said to be their mother and who was accompanied by another woman. From the description of the woman given by the chief, Kidd stated that it was certainly the mother of the children. He further stated that his wife left him two years ago and that he placed the two children in the orphanage of the Franciscan Sisters of this city where they had been wellcared for. Mr. Kidd said he did not have an order of the court allowing him the custody of the children and did not state whether or not a divorce had ever been granted. He has paid for the board of the children since they were placed in the orphanage and is evidently interested in their welfare. Judging by the talk of the women who abducted the children they are hardly the proper persons to have the little one in their charge. Mr. Kidd had placed the children in an institution where they would be well brought up, and we trust he will regain possession of them."

## MUSIC AND DRAMA.

LILLIPUTIAN DRESS REHEARSAL.

Tomorrow morning at 10 o'clock the reserved sale for the performance, "Lilliputian Dress Rehearsal," will commence at H. P. Dunn & Co's., drug store. The seats are only 75 and 50 cents and they can be secured at Dunn's drug store now, but the sale will not open so that these seats may be reserved until tomorrow morning.

One of the last rehearsals was held yesterday afternoon at the opera house and the little folks were at their best. The music went with a snap yesterday that was encouraging to both Miss Barker and the members of the cast. It may be confidently stated now that the performance will be one of the most unique that has ever been given in the city and the little people should be greeted with a crowded house.

## LITTLE PINE.

Mr. Rhodes and family attended a dance at Mud Brook the 17th.

Mr. G. S. Henderson moved his family to his homestead on section 10.

Some of the farmers are looking forward to a fine crop of potatoes.

The board of supervisors held a meeting at the clerks office June 25th.

Mr. Andrew Johnson has returned from Dakota, he reports plenty of work but small wages.

Mr. Kagel was elected delegate from this town to attend the republican county convention Brainerd.

Mr. Collison fell from a box while driving fence posts and was badly injured. The new doctor from Emily was called in and Mr. Collison is now up and around again.

PINE CONE.

## BASE BALL NUBS

The Brainerd team will lineup against their old foes the St. Cloud team Sunday and Monday next, July 3 and 4. The games should draw large crowds. The St. Cloud team is not a professional team this year as it was last, but there are always a lot of good players in that city and they come to Brainerd with all confidence in the world of winning both games.

Brainerd has a second team now. A bunch of players outside the regular team have banded themselves together and they will be able to put up a real good game. They will be heard from later.

A harmless substance that annihilates all life destroying germs that afflict the human system. Strikes the roots and cures disease. That's what Hollister's Rocky Mountain Tea will do. 35 cents, tea or tablets. H. P. Dunn & Co.

FOR R. C. DUNN

Harmonious County Convention Held This Afternoon at the Court House.

THE DELEGATES TO ST. PAUL

Walter A. Hammond for Railroad Commissioner—N.H. Ingersoll County Chairman

The republican county convention to elect delegates to the state convention at St. Paul on June 30 was held this afternoon at the court house in this city.

Chairman John T. Frater, of the republican county central committee, called the convention to order at 2 o'clock. After a few timely remarks regarding matters of general interest to all republicans Mr. Frater read the call, at the conclusion of which nominations for a temporary chairman were called for.

The name of Judd Wright was placed before the convention by Mayor A. J. Halstead and the name of F. H. Gruenhagen was presented by W. W. Bain. On motion it was decided to elect a temporary chairman by rising vote. This was done and Mr. Wright was declared the choice of the convention.

The name of C. B. McLain was presented for temporary secretary and there being no other candidate he was on an unanimous vote of the convention elected.

On motion of Mayor Halsted the chair appointed a committee of three on credentials. He named F. W. Wieland, John Larson and Harry Patterson.

The committee on credentials reported 70 delegates entitled to seats in the convention. On motion of J. N. Nevers the report of the committee was adopted.

On motion of Edward Crust the temporary organization was made permanent.

On motion of George Sargent the delegates proceeded to elect twelve delegates to the state convention.

S. R. Adair and R. J. Maghan were appointed tellers.

On the first ballot the following delegates were elected, they being the choice of the Dunn faction in the convention. The vote stood 55 for Dunn and 13 for Collins:

A. J. Halsted, John T. Frater, N. H. Ingersoll, A. E. Veon, C. A. Krech, J. S. Gardner, Kenneth McDonald, H. J. Hage, Freeman Thorpe, Geo. I. Reimstad, J. J. Howe and Henry Spalding.

On motion of S. R. Adair the convention instructed the delegates to vote for Hon. R. C. Dunn for governor.

A committee from the Trades and Labor assembly handed in a communication asking that the delegates be instructed to vote for the nomination of Walter A. Hammond, of St. Paul, for railroad and warehouse commissioner. The communication was accepted and the delegates were on motion so instructed.

On motion of A. T. Larson the delegation was instructed to work for and vote for E. A. Jaggard for the supreme court.

F. E. Kenney moved that the chair appoint a committee on resolutions, but the motion was lost.

The chair called for the nomination of a chairman of the county central committee. J. C. Davis nominated N. H. Ingersoll. There were no other nominations and on motion Mr. Ingersoll was declared elected.

## ONE RELEASED; TWO PLEAD

Case of the State Against George Sundine, Arthur Nyquist and Clyde Miller Taken Up Yesterday.

The case of the state against George Sundine, Arthur Nyquist and Clyde Miller, charged with grand larceny, was taken up yesterday afternoon before Judge Warner in the municipal court. Sundine and Nyquist both plead guilty to a lesser charge, petty larceny, and were sentenced to serve thirty days in the county jail. It was shown that Miller had no connection with the case and he was discharged.

The boys were charged with stealing some brass from the Northern Pacific shops, and they have been in jail for about a week.

## Worst of all Experiences.

Can anything be worse than to feel that every minute will be your last? Such was the experience of Mrs. S. H. Newson, Decatur, Ala. "For three years," she writes, "I endured insufferable pain from indigestion, stomach and bowel trouble. Death seemed inevitable when doctors and all remedies failed. At length I was induced to try Electric Bitters and the result was miraculous. I improved at once and now I'm completely recovered." For liver, kidney, stomach and bowel troubles Electric Bitters is the only medicine. Only 50c. It's guaranteed by H. P. Dunn & Co., druggists.

## The Only Line With a World's Fair Station.

This refers to the Minneapolis & St. Louis railroad and means:

1st—The shortest line.  
2nd—The most comfortable route.  
3rd—Two fine through trains direct to the gates of the fair.

4th—A saving of about three hours in time.

5th—You avoid the crowds at the union depot and on the street cars.  
6th—You save money by being landed just where you want to go.

There are many other reasons but "a word to the wise is sufficient."

For excursion tickets, berth reservations and a complete guide to the fair, free, address A. B. Cutts, G. P. & T. A., Minneapolis, Minn.

Largest line of trunks in the city at D. M. Clark & Co. tf

## Startling Evidence

Fresh testimony in great quantity is constantly coming in declaring Dr. King's New Discovery for consumption, coughs and colds to be unequalled. A recent expression from T. J. McFarland, Bentonville, Va., serves as example. He writes: "I had bronchitis for three years and doctored all the time without being benefited. Then I began taking Dr. King's New Discovery and a few bottles wholly cured me." Equally effective in curing all lung and throat troubles, consumption, pneumonia and grip. Guaranteed by H. P. Dunn & Co., druggists. Trial bottles free, regular sizes 50c and \$1.00.

Celebrated Alaska refrigerators for sale at D. M. Clark & Co. tf

## IMMEDIATE NEEDS OF BRAINERD

N. P. Ry. Should Advertise Town as a Summer Resort—Excursions Should Come this Way

## COMMERCIAL CLUB NEEDED

John Hoffbauer Writes Entertainingly for The Dispatch, Giving His Impressions

EDITORS THE DISPATCH:

As one who may be considered an "outsider," having lived in Brainerd about a year and a half, I beg to write a few words regarding this town of ours. I may look at it in different light than one who has been born and raised here.

## COMMERCIAL CLUB NEEDED.

Every town of any importance has a "Commercial Club" composed of representative business men, managers of departments, city officials, professional men and others, who make it their business to push their town along, well knowing that what benefits the city as a whole, benefits them. We have nothing in that line. Such towns appreciate the fact that they can't afford to sit down like the immortal Micawber and wait for something to turn up. The various stores are united in an organization which appears to interest itself mainly in the commercial business, paying little attention to municipal affairs. The unions assist the town when they demand that work which can be done in Brainerd should be done here. Castings and other work in the machinery line can be made in this town as cheaply as in Little Falls, besides saving freight charges.

## WE HAVE NO ANCIENT HISTORY.

Some localities have a lot of ancient history to bank on, but all I can discover in this line is that Brainerd helped to eat a lot of blueberries in the celebrated "Blueberry Rebellion," and that the temperature of this town was high when the railroad came, and that somebody built the first bridge, and that somebody else had the contract clearing stumps on the N. P. Ry., right-of-way and the Brainerd stumps were the hardest ones he ever extracted, and that at one time we were on the edge of civilization, but now, blame it, we have civilization all around us and the edge has jumped to the other side of the M. & I. Ry., out in the brush and tall timber. St. Paul and New Ulm have wagon loads of municipal history, but we are shy on ancient history. We have no past, but we can make a future.

## N. P. RY. SHOULD ADVERTISE TOWN AS SUMMER RESORT.

Every town, when properly organized, is able to make an appeal for advertising to the railway entering same. Aitkin's commercial club tackled the N. P. Ry., got Aitkin down on the maps as a summer resort and immediately secured that much more advertising for Aitkin. Nobody seems to have thought of it, but what's the matter with making this place a summer resort? All that's needed is scenery, pretty girls, water and mosquitoes. With the exception of the mosquitoes, Brainerd has all of this and more too. If the Northern Pacific finds itself incapable of adequately describing the artificial and natural beauties of Brainerd and vicinity, there are enough word and sign painters here to do the work well.

The "Wisconsin Central" is pushing many of its towns, making them summer resorts, "rest stations," etc. We have the nicest town on earth, but what tourist will know it unless the N. P. Ry. splashes some printer's ink. If Niagara Falls would wait for its oldest inhabitants to do the advertising you'd never hear of the place. It's because the "N. Y. Central" booms it that you can't lose Niagara. All the railway advertising I have seen so far, relating to this town, is a line mention hidden away in a folder boosting Puget Sound. It states this town has some shops and a hospital and that the N. P. crosses the Mississippi at this point. There were important events in history when Washington crossed the Delaware and Caesar launched his legions across the Rubicon and I suppose we ought all feel proud that the N. P. crosses the Mississippi here.

## CELEBRATING AWAY FROM HOME.

The habit of celebrating away from home has fastened itself upon this town. Twenty or more shop excursions have run from this place and dropped thousands of dollars into other towns. Blow your money where you want to, but the committees having such affairs in charge should impress the idea upon the cities visited, that this excursion feature is a reciprocal affair. Brainerd visits Bemidji, but Bemidji will have to do the square thing and come to Brainerd. This makes a better chance to break even. 2600 people, as stated by the "St. Paul Daily News," visited Bemidji. They patronized its restaurants and other places, stocked up on wet goods and dry goods. Three young men of town went the limit and paid good sized cash fines into Bemidji's treasury. As though this place couldn't take care of the moneyed boys when they looked for trouble! The municipal court of Brain-

erd would gladly have imposed those fines. How does Bemidji reciprocate in this instance? Nearly every one of her lumberjacks who raises a row in Brainerd is dead drunk and dead broke when jailed.

## CONVENTIONS.

The Maccabee convention was originally headed this way by the Brainerd boys, but some way for other the event was pocketed by Minneapolis. The delegates left more money in the Mill City than they ever carried away.

The liquor dealers' convention slipped past Brainerd and into the jackpines of Bemidji and we lost two coaches of delegates and one baggage car full of assorted bottled goods.

The Elks and their dears stampeded to Walker. If Walker plays a return engagement the towns will break even.

The Eagles, on the other hand, established a precedent by drawing a big crowd to Brainerd when they gave their week's carnival. The saloon men as a rule put up quite a little cash to get the attractions here. If they made money from the crowds attending they were entitled to it. It stayed in Brainerd. The unions have hustled and landed the state labor convention of 1905. The Yeomen are making a bid for their state convention. The churches are doing their best in getting convention business. The Swedish Baptists gathered in Brainerd recently, their proceedings being featured by THE DISPATCH.

Fourth of July may be another case of everybody breaking away from town. The Germania Maennerchor and the Elk band will tie to Brainerd, and the Woodmen will make their axes ring in the giant oaks and skyscraping jackpines at Gilbert lake. The St. Louis exposition reached its long arm to Minnesota and grabbed every editor in Brainerd and took them to the biggest show on earth. The only holiday that kept anybody in town was Decoration day, and even in some cases here the fish pole was mightier than the U. S. flag. Probably the only way to keep a Brainerd man home is to plant him in the earth. From present indications it looks as though the unions will redeem this gadabout habit of Brainerd by having a big celebration on Labor day.

## WE LOST THE CIRCUS.

I would not have written as much as this had it not been for the statement in THE DISPATCH that Ringling Bros' representative was here looking for ground on which to pitch his circus tents and couldn't find any. Think of it! Citizens and citizenesses, the poor man went away because he couldn't find any ground in Brainerd. Where were our commercial organizations, mayor, aldermen, real estate men or anybody else having the city's interest at heart? A man is certainly at sea when he can't find land here. Here was a chance to lease a whole subdivision of Brainerd to the biggest show on earth, a circus which, as a rule, makes only the largest cities. The advance agent left town and Wadena gets the show, the advertising, the cheap railroad rates and, mark you, the inevitable crowd from Brainerd.

It is probably very presumptuous for a young man who is not a millionaire, an old inhabitant, a barnacle politician or a man with an Hon. tacked to his name to air his opinions in Brainerd. I can stand quite a few jolts myself, but I had to break loose when this town lost the circus because it was so congested with houses, lakes, bridges, saw mills, steam, smoke, breweries, shops, farms, fences, politics, streets, sewers, prehistoric street car tracks, unplatted land, Dunn delegates and other things too numerous to mention, (as the fellow says who gets out those auction handbills), that there wasn't room enough to pitch a tent.

Yours Respectfully,

JOHN A. HOFFBAUER.

P. S. The editor has kindly performed an operation for appendicitis on a column of his "patent insides," skillfully substituting sections of this letter for the appendix.

J. A. H.

## That Throbbing Headache

Would quickly leave you if you used Dr. King's New Life Pills. Thousands of sufferers have proved their matchless merit for sick and nervous headaches. They make pure blood and build up your health. Only 25 cents, money back if not cured. Sold by H. P. Dunn & Co., druggists.

## Facts You Ought To Know!

- 1 Season tickets St. Paul or Minneapolis to St. Louis and return \$25.00—Sixty day ticket \$21.35—Ten day ticket \$19.20.
- 2 Fair opens about May 1st, and closes December 1st.
- 3 Five daily trains to Chicago each way making close connections with St. Louis trains.
- 4 No extra charge to go via Chicago.
- 5 Tickets good on the Fast Mail and Pioneer Limited electric lighted trains.
- 6 Full information about rates, routes and accommodations will be cheerfully furnished on application to W. B. DIXON, N. W. P. A. CHICAGO, MILWAUKEE & ST. PAUL RY. ST. PAUL, MINN.

## Driven to Desperation.

Living at an out of the way place, remote from civilization, a family is often driven to desperation in case of accident, resulting in burns, cuts, wounds, ulcers, etc. Lay in a supply of Bucklen's Arnica Salve. It's the best on earth. 25c at H. P. Dunn & Co.'s drug store.

## BIG WRESTLING MATCH IN SIGHT

Moxie, the Big Swede Wrestler of this City Will Wrestle Charles Moth

## IN THIS CITY IN JULY

Will Wrestle for \$500 a Side and the Receipts—Moth is the World's Champion.

There is a wrestling match of more than ordinary interest scheduled to take place in this city about the middle of July between Moxie, the big Swede wrestler of this city, and Charles Moth, the world's champion Greco-Roman wrestler. Charles Moth has a reputation as one of the best in the business and he has yet to meet his conqueror.

Much interest has been taken in this city in Moxie, who is at present employed at the N. P. blacksmith shop. He is a man who weighs over 200 pounds and is stronger than an ox. He has not been in this country long, but had a reputation in Sweden as a great wrestler. He was champion of Stockholm when he left and states that he is willing to go on the mat with any man in the United States Greco-Roman.

The match between Moth and Moxie will be for \$500 a side and a division of the gate receipts. The date of the big match will be about the middle of July. Moth has one or two dates out west and the date here with Moxie will have to be arranged to comply with the other dates. Much interest is being taken in the match.

## THE DUNN-REILLY NUPTIALS

The Marriage of Mr. H. P. Dunn and Miss Sadie Reilly Will Occur Tomorrow Morning at 9 o'clock.

Tomorrow morning at 9 o'clock Mr. Henry P. Dunn and Miss Sadie Reilly will be married at St. Francis' Catholic church, Rev. D. W. Lynch officiating.

The twain are among the most popular young people in the city. They have issued no invitations but their friends will doubtless be at the church to attend the ceremony. None but relatives and intimate friends will attend the wedding breakfast at the home of the bride. Mr. and Mrs. Dunn will leave after the ceremony for a short eastern trip and expect to be gone about two weeks.

A powerful, medicine whose mysterious forces once liberated within your system produces a most wonderful affect. Drives away all life destroying germs. That's what Hollister's Rocky Mountain Tea does. 35 cents, tea or tablets. H. P. Dunn & Co.

- 6th—You save money by being landed just where you want to go.

There are many other reasons but "a word to the wise is sufficient."

For excursion tickets, berth reservations and a complete guide to the fair, free, address A. B. Cutts, G. P. & T. A., Minneapolis, Minn.

Largest line of trunks in the city at D. M. Clark & Co.

### Startling Evidence

Fresh testimony in great quantity is constantly coming in, declaring Dr. King's New Discovery for consumption, coughs and colds to be unequalled. A recent expression from T. J. McFarland, Bentonville, Va., serves as example. He writes: "I had bronchitis for three years and doctored all the time without being benefited. Then I began taking Dr. King's New Discovery and a few bottles wholly cured me." Equally effective in curing all lung and throat troubles, consumption, pneumonia and grip. Guaranteed by H. P. Dunn & Co., druggists. Trial bottles free, regular sizes 50c and \$1.00.

Celebrated Alaska refrigerators for sale at D. M. Clark & Co.

## IMMEDIATE NEEDS OF BRAINERD

N. P. Ry. Should Advise Town as a Summer Resort—Excursions Should Come this Way

### COMMERCIAL CLUB NEEDED

John Hoffbauer Writes Entertainingly for The Dispatch, Giving His Impressions

#### EDITORS THE DISPATCH:

As one who may be considered an "outsider," having lived in Brainerd about a year and a half, I beg to write a few words regarding this town of ours. I may look at it in different light than one who has been born and raised here.

#### COMMERCIAL CLUB NEEDED.

Every town of any importance has a "Commercial Club" composed of representative business men, managers of departments, city officials, professional men and others, who make it their business to push their town along, well knowing that what benefits the city as a whole, benefits them. We have nothing in that line. Such towns appreciate the fact that they can't afford to sit down like the immortal Micawber and wait for something to turn up. The various stores are united in an organization which appears to interest itself mainly in the commercial business, paying little attention to municipal affairs. The unions assist the town when they demand that work which can be done in Brainerd should be done here. Castings and other work in the machinery line can be made in this town as cheaply as in Little Falls, besides saving freight charges.

#### WE HAVE NO ANCIENT HISTORY.

Some localities have a lot of ancient history to bank on, but all I can discover in this line is that Brainerd helped to eat a lot of blueberries in the celebrated "Blueberry Rebellion," and that the temperature of this town was high when the railroad came, and that somebody built the first bridge, and that somebody else had the contract clearing stumps on the N. P. Ry., right-of-way and the Brainerd strumps were the hardest ones he ever extracted, and that at one time we were on the edge of civilization, but now, blame it, we have civilization all around us and the edge has jumped to the other side of the M. & I. Ry., out in the brush and tall timber. St. Paul and New Ulm have wagon loads of municipal history, but we are shy on ancient history. We have no past, but we can make a future.

#### N. P. RY. SHOULD ADVISE TOWN AS SUMMER RESORT.

Every town, when properly organized, is able to make an appeal for advertising to the railway entering same. Aitkin's commercial club tackled the N. P. Ry., got Aitkin down on the maps as a summer resort and immediately secured that much more advertising for Aitkin. Nobody seems to have thought of it, but what's the matter with making this place a summer resort? All that's needed is scenery, pretty girls, water and mosquitoes. With the exception of the mosquitoes, Brainerd has all of this and more too. If the Northern Pacific finds itself incapable of adequately describing the artificial and natural beauties of Brainerd and vicinity, there are enough word and sign painters here to do the work well.

The "Wisconsin Central" is pushing many of its towns, making them summer resorts, "rest stations," etc. We have the nicest town on earth, but what tourist will know it unless the N. P. Ry. splashes some printer's ink. If Niagara Falls would wait for its oldest inhabitants to do the advertising you'd never hear of the place. It's because the "N. Y. Central" booms it that you can't lose Niagara. All the railway advertising I have seen so far, relating to this town, is a 4 line mention hidden away in a folder boosting Puget Sound. It states this town has some shops and a hospital and that the N. P. crosses the Mississippi at this point. There were important events in history when Washington crossed the Delaware and Caesar launched his legions across the Rubicon and I suppose we ought all feel proud that the N. P. crosses the Mississippi here.

#### CELEBRATING AWAY FROM HOME.

The habit of celebrating away from home has fastened itself upon this town. Twenty or more shop excursions have run from this place and dropped thousands of dollars into other towns. Blow your money where you want to, but the committees having such affairs in charge should impress the idea upon the cities visited, that this excursion feature is a reciprocal affair. Brainerd visits Bemidji, but Bemidji will have to do the square thing and come to Brainerd. This makes a better chance to break even. 2600 people, as stated by the "St. Paul Daily News," visited Bemidji. They patronized its restaurants and other places, stocked up on wet goods and dry goods. Three young men of town went the limit and paid good sized cash fines into Bemidji's treasury. As though this place couldn't take care of the moneyed boys when they looked for trouble! The municipal court of Brainerd would gladly have imposed those fines. How does Bemidji reciprocate in this instance? Nearly every one of her lumberjacks who raises a row in Brainerd is dead drunk and dead broke when jailed.

erd would gladly have imposed those fines. How does Bemidji reciprocate in this instance? Nearly every one of her lumberjacks who raises a row in Brainerd is dead drunk and dead broke when jailed.

#### CONVENTIONS.

The Maccabee convention was originally headed this way by the Brainerd boys, but some way for other the event was pocketed by Minneapolis. The delegates left more money in the Mill City than they ever carried away.

The liquor dealers' convention slipped past Brainerd and into the jackpines of Bemidji and we lost two coaches of delegates and one baggage car full of assorted bottled goods.

The Elks and their dears stampeded to Walker. If Walker plays a return engagement the towns will break even.

The Eagles, on the other hand, established a precedent by drawing a big crowd to Brainerd when they gave their week's carnival. The saloon men as a rule put up quite a little cash to get the attractions here. If they made money from the crowds attending they were entitled to it. It stayed in Brainerd.

The unions have hustled and landed the state labor convention of 1905. The Yeomen are making a bid for their state convention. The churches are doing their best in getting convention business. The Swedish Baptists gathered in Brainerd recently, their proceedings being featured by THE DISPATCH.

Fourth of July may be another case of everybody breaking away from town. The Germania Maennerchor and the Elk band will tie to Brainerd, and the Woodmen will make their axes ring in the giant oaks and skyscraping jackpines at Gilbert lake. The St. Louis exposition reached its long arm to Minnesota and grabbed every editor in Brainerd and took them to the biggest show on earth. The only holiday that kept anybody in town was Decoration day, and even in some cases here the fish pole was mightier than the U. S. flag. Probably the only way to keep a Brainerd man home is to plant him in the earth. From present indications it looks as though the unions will redeem this gadabout habit of Brainerd by having a big celebration on Labor day.

#### WE LOST THE CIRCUS.

I would not have written as much as this had it not been for the statement in THE DISPATCH that Ringling Bros.' representative was here looking for ground on which to pitch his circus tents and couldn't find any. Think of it! Citizens and citizenesses, the poor man went away because he couldn't find any ground in Brainerd. Where were our commercial organizations, mayor, aldermen, real estate men or anybody else having the city's interest at heart? A man is certainly at sea when he can't find land here. Here was a chance to lease a whole subdivision of Brainerd to the biggest show on earth, a circus which, as a rule, makes only the largest cities. The advance agent left town and Wadena gets the show, the advertising, the cheap railroad rates and, mark you, the inevitable crowd from Brainerd.

It is probably very presumptuous for a young man who is not a millionaire, an old inhabitant, a barnacle politician or a man with an Hon. tacked to his name to air his opinions in Brainerd. I can stand quite a few jolts myself, but I had to break loose when this town lost the circus because it was so congested with houses, lakes, bridges, saw mills, steam, smoke, breweries, shops, farms, fences, politics, streets, sewers, prehistoric street car tracks, unplatted land, Dunn delegates and other things too numerous to mention, (as the fellow says who gets out those auction handbills), that there wasn't room enough to pitch a tent.

Yours Respectfully,

JOHN A. HOFFBAUER.

P. S. The editor has kindly performed an operation for appendicitis on a column of his "patent insides," skillfully substituting sections of this letter for the appendix.

J. A. H.

#### That Throbbing Headache

Would quickly leave you if you used Dr. King's New Life Pills. Thousands of sufferers have proved their matchless merit for sick and nervous headaches. They make pure blood and build up your health. Only 25 cents, money back if not cured. Sold by H. P. Dunn & Co., druggists.

#### Facts You Ought to Know!

- 1 Season tickets St. Paul or Minneapolis to St. Louis and return \$25.00—Sixty day ticket \$21.35—Ten day, ticket \$19.20.
- 2 Fair opens about May 1st, and closes December 1st.
- 3 Five daily trains to Chicago each way making close connections with St. Louis trains.
- 4 No extra charge to go via Chicago.
- 5 Tickets good on the Fast Mail and Pioneer Limited electric lighted trains.
- 6 Full information about rates, routes and accommodations will be cheerfully furnished on application to W. B. Dixon, N. W. P. A. CHICAGO, MILWAUKEE & ST. PAUL RY. St. Paul, Minn.

#### Driven to Desperation.

Living at an out of the way place, remote from civilization, a family is often driven to desperation in case of accident, resulting in burns, cuts, wounds, ulcers, etc. Lay in a supply of Bucklen's Arnica Salve. It's the best on earth. 25c at H. P. Dunn & Co.'s drug store.

## BIG WRESTLING MATCH IN SIGHT

Moxie, the Big Swede Wrestler of this City Will Wrestle Charles Moth

### IN THIS CITY IN JULY

Will Wrestle for \$500 a Side and the Receipts—Moth is the World's Champion.

There is a wrestling match of more than ordinary interest scheduled to take place in this city about the middle of July between Moxie, the big Swede wrestler of this city, and Charles Moth, the world's champion Greco-Roman wrestler. Charles Moth has a reputation as one of the best in the business and he has yet to meet his conqueror.

Much interest has been taken in this city in Moxie, who is at present employed at the N. P. blacksmith shop. He is a man who weighs over 200 pounds and is stronger than an ox. He has not been in this country long, but had a reputation in Sweden as a great wrestler. He was champion of Stockholm when he left and states that he is willing to go on the mat with any man in the United States Greco-Roman.

The match between Moth and Moxie will be for \$500 a side and a division of the gate receipts. The date of the big match will be about the middle of July. Moth has one or two dates out west and the date here with Moxie will have to be arranged to comply with the other dates. Much interest is being taken in the match.

### THE DUNN-REILLY NUPTIALS

The Marriage of Mr. H. P. Dunn and Miss Sadie Reilly Will Occur Tomorrow Morning at 9 O'clock.

Tomorrow morning at 9 o'clock Mr. Henry P. Dunn and Miss Sadie Reilly will be married at St. Francis' Catholic church, Rev. D. W. Lynch officiating.

The twain are among the most popular young people in the city. They have issued no invitations but their friends will doubtless be at the church to attend the ceremony. None but relatives and intimate friends will attend the wedding breakfast at the home of the bride. Mr. and Mrs. Dunn will leave after the ceremony for a short eastern trip and expect to be gone about two weeks.

A powerful, medicine whose mysterious forces once liberated within your system produces a most wonderful affect. Drives away all life destroying germs. That's what Hollister's Rocky Mountain Tea does. 35 cents, tea or tablets. H. P. Dunn & Co.

## MINNESOTA EDITORS AT WORLD'S FAIR

M. & ST. L. THE HIGHWAY OF THE NORTHWEST.

Banner Outing of the M. E. A.—Dedication of the Minnesota Building—Wonderland of Palace and Streets—The Committee Endorsed.

To Congressman Tawney for his personal efforts in our behalf.

To Chas. S. Mitchell, superintendent of the Minnesota exhibits at the fair, who did all two men could do, even in the press of other special duties, to make the exposition visit happy and successful; and to his efficient secretary, Joe Whitney, for similar efforts.

To George L. Brown, Pullman conductor, for unremitting labor to make the life of everybody except himself a happy one.

To the Minnesota Type Foundry Co., the McCall Paper Co., the F. G. Leslie Paper Co., the Inland Type Foundry, for attractive souvenirs. Lastly, but in respect of time and work in the editors' service, facile princeps, the executive committee.

Minnesota's Display.

Work of the Managers.

As the Minnesota Board of Managers, as they are officially known, had a set purpose in the plan of each exhibit made at the fair. The Board is a small one, just three men, and each a trained and successful business man. Messrs. Conde Hamilton, J. M. Underwood and Theo. J. Hays seemed to have entered into this work with the same systematic thoroughness that they are understood to enforce in their own business. They have evidently not wasted a dollar of the state's small appropriation and have made every penny count. The earliest and most important act of the board was the appointment of Mr. Chas. S. Mitchell as superintendent and executive officer, whose tireless and able efforts are warmly endorsed by the commissioners and all having to do with Minnesota's interests at the exposition. It is to be regretted both that the appropriation was not larger and that the people of the state did not take more of a personal interest in the state's exhibit. With one or two exceptions not one of the representatives of the great resources and industries of Minnesota, has given any material assistance to the board and practically every feature of the state's exhibits had to be bought and paid for, while in other states whole exhibits were supplied by large special interests.

The Minnesota Building.

The first intention of the Board was to erect a permanent building, one that could be taken back to the state, but the contractors and builders of Minnesota instead of helping to this end and taking an interest in the plan, submitted two bids after long waiting and personal solicitation, and they were nearly double the architect's estimate. Having, therefore, to abandon this idea of permanency, it was decided to put just as little money as possible in the building, saving as much as possible for the exhibits. The design of the building is classic and severely simple. The finish is very plain, and as a whole it is either sharply condemned for its plainness or is highly praised for its artistic consistency and beauty; there seems to be no middle ground of criticism. Those who most admire richly upholstered furniture and outward excess of adornment, condemn, while architects and students of art, enthusiastically praise. It is built with special reference to the hot weather that is supposed to visit St. Louis in the mid-summer months, and certainly if there are any breezes, Minnesotans visiting the fair, will find them there. It is an arrangement, just a convenient and comfortable club house. There is a large front room, opening on the three sides, through glass doors, to porch corridors and a walled front porch. Large urns filled with flowering plants, break and give color to the whiteness of this wall, while large flat awnings extending from the house to the wall afford protection from the main room. Besides the main room, there is a business office and check room with the postoffice, and waiting-rooms for women and men with toilets off each, and a large room furnished for the convenience of those who bring their noon luncheon and wish a place to eat it. Every daily newspaper of the state and over one hundred of the weekly papers are kept on file, and what is of decided importance, pure ice water is always to be had. The State's nearest neighbors are Iowa, Massachusetts, Kansas, New York and Ohio, each of which has expended from fifty to one hundred thousand dollars in its building, while the contract for Minnesota's was but little over sixteen thousand dollars, which as it answers every needed purpose seems quite enough to put in a building that must practically be given away at the close of the fair.

Building Stone.

Of the department exhibits, taking them in their order from the state building, the first is found in the Palace of Mines and Metallurgy. This shows Minnesota's building stone and iron ores. On two sides is a low stone wall of polished granites from the St. Cloud and Ortonville districts, Kettle River sandstone, polished Mankato and Kasota marble and Twin City pressed brick, while a polished granite column 20 feet high and weighing sixteen thousand pounds stands in the angle. On the other two sides, are walls twelve feet high, against which are placed seven faces of stone, each five by seven feet, showing cut granite, Winona stone, pipestone and Jasper, as if laid in the wall of a building.

Iron Ore, Mines and Docks.

Minnesota has but one mineral

to show—its iron, and this exhibit includes samples of ore from the mines, the method of mining, how the ore is handled and how shipped by rail to Duluth, the greatest iron shipping port in the world. From one to four samples of the various grades of ore taken in every mine in the state that is in operation, are shown in a hundred large glass jars. There is a statistical chart of the output and two groups of photographs, three by ten feet in size showing every phase of mining. There is a model of the cars used in shipping from the mines, of a section of one of the great ore docks at Duluth and of the Fayal mine—the greatest producing iron mine on earth. This last model is eleven feet square, and shows even the minutest detail of this most famous mine and the three processes of mining characteristic of the Minnesota region—the open-pit, the mill, and the underground. In the center of the space is a beautiful model of Duluth city and harbor. On it is shown every building in the city, every elevator, dock, pier, bridge, car line, and mill. One hundred and thirty vessels, exact reproductions of the boats that make the harbor, are there, and the whole model is covered, lighted by electricity and viewed through glass covered openings. No attention in the building attracts more exhibition and more sight seers go inside of its space and it holds them longer than any other of its neighboring exhibits and this is the real test of its worth.

Education.

The next building is the Palace of Education and here in the most prominent position is Minnesota's booth. This exhibit is certainly a gem. A lady who is one of the most competent critics in the state, says that "Minnesota's is far and away the most artistic in its arrangement, the most harmonious and dignified and the most beautiful as a picture, in the building." This play sound extravagant but even the exhibitors from other states freely admit that none excels Minnesota. The entire outside wall has a deep frieze in colors showing the University campus and buildings and the Agricultural college and buildings, while on the rear wall is another frieze of large photographs of these buildings. The "U" also has a cabinet filled with photographs, charts of statistics, etc. From the University down, the entire public school system of the state is shown, including the normals, the high, graded schools of St. Paul and Minneapolis and of the second-ary towns of the state, the state graded schools, semi-graded and rural schools. Special attention has been given to manual training and art work and it is all most systematically and effectively grouped. The booth itself is of oak in mission brown stain, the walls are of a deep blue burlap and in no least particular has anything been discarded or cheapened or any note of disrepute been allowed to creep in to mar its beauty, while every feature of the state's unrivaled school system is shown.

A Ruined Fish Exhibit.

This is not only the first time in the history of expositions that there has been a building devoted wholly to education, but for the first time there is a Forestry and Game and Fish building separate from the government plant. Here Minnesota's Board arranged for one of its most attractive displays. St. Louis is the very center of the district from which the state draws much the larger part of its summer tourist business. Fully 75 per cent it is said, of those who come from that section. The importance of the game and fish department, can, therefore, be readily appreciated. Minnesota was one of three states to attempt a live fish display. Eighty-four lineal feet of aquaria were built and these are as fine as are in the building. The Exposition Company agreed on its part to furnish refrigerated water free for the tanks. The exact location of the trout tanks was deemed so that the water supply might be regulated with regard to the temperature needed by the various species of fish shown. Without this assurance of refrigerated water no state would have dreamed of trying to show live fish or fish culture, but it is not furnished. There are no refrigeration connections and the fish die almost as soon as transferred from the cool waters of the lakes and streams to the tepid water of the tanks. Pennsylvania has ten thousand dollars invested in its fish displays, and Missouri as much more. Their tanks are practically empty of fish. Fortunately Minnesota did not invest as much money by two-thirds, for when it took down a car of splendid pike, pickerel, muskellunge and kindred fish, they lived only a few hours. The fish exhibitors as the saying is "went clear in the air" when they saw Minnesota's fish. They said that they never before had seen such splendid specimens put on exhibition alive.

Fine Showing of Game.

The State's game exhibit is a clever conception. It is a scene in the northern pine woods in Minnesota. Built as a cyclorama, in the foreground is a pine forest with birch openings, while you look back in the far distance to a beautiful lake scene. At one side are three splendid specimens of moose, a cow and two bucks, mounted as if coming through the timber. The leader has scented danger and stops with his head thrown high in the air. The second is hesitating, but the third is still on the run. On the other side of the scene are three red deer, one browsing, one lying down and one eating from the trees. A large caribou is in the foreground; there are also badgers, black bears, wolves, foxes, mink and game birds, owls and hawks, etc. The whole making a most effective scenic picture. It is wholly different from any other exhibit and receives great praise. Besides this scene is a small space where are shown mounted heads of moose and deer, mounted fish, etc., with maps and photographs.

Agriculture.

Three of Minnesota's exhibits are in the Palace of Agriculture. Agriculture itself occupies a space sixty-two by fifty feet. It is a very creditable exhibit, and the "Bread and Butter State," the name won at Buffalo, is made secure. The central feature here is a great refrigerator case set on a platform about five feet high.

This platform is encircled with steps at the front leading to the top and the sides are plates of glass back of which is shown the flower of the leading country mills, which also is shown in small silk sacks attractively arranged. The refrigerator itself is octagonal. The floor space is ten by eight feet and its triple plate glass sides rise fifteen feet above the platform. In this is to be a monumental piece in butter carrying out the domestic idea of Minnesota as the home state. There is a pedestal with nearly a life size figure at each corner representing Agriculture, Dairying, Education and Mining, and on the face of one side is a medallion of Gov. Van Sant. Crowning this pedestal is the seated figure of a mother giving to her little child a piece of bread and butter. The entrance to the booth is an imposing triumphal archway twenty-eight feet high and crowned with banners and flags. The sides and face of the arch are of plate glass, two of them on velvet are beautiful designs in grains and grasses.

Horticulture.

The one remaining department of the state's exhibits is horticulture. Minnesota has the strongest and largest horticultural society in the United States and the very fact that it has not for all this been known as a fruit producing state gives a special importance to this department. The installation is in white and gold. It has a prominent position and while not large is very attractive and pretty. The display of fruit, both the small fruits and apples has won strong approval from horticulturists everywhere. The display is being very much strengthened and will be, of course, renewed and very much added to as the season advances. As it is at present, however, judging by the verdict of fruit raisers it should be a matter of pride to the state. It has indeed, been a surprise to the eastern and southern states to see the excellence, the beauty and color and the delicious flavor of the fruits raised in this northern climate.

Financial.

The Board states that financially it is in good condition. That when the fair closes the state will have paid for and own every exhibit shown, and that there will be enough money left to bring them all back to Minnesota. Not the least of this fact.

H. M. WHELOCK.

Fergus Falls, June 14, 1904.

Zopher W. Brooks celebrated his ninety-second birthday at Hancock, N. H., the other day. His father was an officer in the American army under Washington.

SETTLER STABBED TO DEATH.

Man Who Did the Killing and His Wife Go Insane.

Bemidji, Minn., June 28.—In a drunken fight in the town of Buzzle, twenty miles north of Bemidji, Ole Bakken, a homesteader, was stabbed to death by Bersven Roan, a neighbor. Roan was arrested and brought to this city. He is crazed with grief over the deed, which he says was committed in self-defense.

His wife went violently insane when informed of her husband's crime, and eleven children, deprived of parental care, will become public charges pending the trial.

GAMBLING HOUSE ROBBERED.

Texas Resort Loses Over Twelve Hundred Dollars.

Houston, Tex., June 28.—Thieves last night worked a successful scheme for the robbery of a gambling house. About 8 o'clock a piece of dynamite was exploded under a poker table and the crowd of 100 immediately made a rush for the exit. During the excitement some one grabbed the bank roll at the faro table, getting between \$1,200 and \$1,500.

THREE MEN DROWNED.

Their Boat Accidentally Capsized in the Illinois River.

Joliet, Ill., June 28.—In the Illinois river near Morris, Harry Jacobs, Harry Brooker and John Blooms, Harry were drowned by the accidental capsizing of a boat in which they were making a fishing trip. All were from Joliet.

## MAN HUNT CONTINUES

BLOODHOUNDS ARE NOW IN PURSUIT OF THE SLAYER OF SHERIFF HARRIS.

HIDING IN RIVER BOTTOMS

SUSPECT SUPPOSED TO BE CONCEALED NEAR BLACK RIVER IN WISCONSIN.

La Crosse, Wis., June 28.—John Smith, the slayer of Sheriff Harris, who was reported to attempt the crossing of the Mississippi river at Winona, was turned south and is now believed to be in hiding in the Black river bottoms between North Bend and Holmen, this county. A man answering his description appeared in a barber shop on the outskirts of La Crosse on Saturday and forced the barber by threats to shave off his mustache in a hurry.

Superior and Duluth policemen and bloodhounds have taken up the chase. He is believed to be in a swamp at Merillen, Wis.

The town constable at Holmen has arrested a suspicious character there and he will be held for further information. He does not, however, closely answer the description of Smith.

GENERAL SLOCUM DISASTER.

Coroner's Jury Inspects the Hulk of the Steamer.

New York, June 28.—The coroner's jury investigating the General Slocum disaster was taken to the hulk of the burned steamer at Erie basin Monday and after an inspection of several witnesses and the examination of several witnesses proceeded in a patrol boat over the route followed by the steamer on the day of the ill-fated excursion.

Commander Winslow of the navy, who, with General Wilson of the army, was appointed to make federal inquiry into the disaster, was on board the Slocum when the coroner and his party arrived. Commander Winslow compiled a description of the Slocum's interior as he found it. On board the Slocum, Coroner Berry led the way to the forward hatchway, a blackened opening in the midst of a pile of rotting life preservers, tangled iron and half burned barrels.

Terrance McManus, counsel for the Knickerbocker Steamship company, was asked by the coroner if he would concede that that was the spot where the fire was first discovered, but declined, and Edwin Brandow, the assistant engineer, answered the question affirmatively.

Former Fire Marshal Thomas F. Freer said that he had examined the hold of the vessel on the day it was raised and found that the fire started in one of the barrels, as it was burned from the bottom and from inside, and not on the outside.

The inquest will probably be completed today.

GENERAL MILES RETICENT.

Has Not Said He Would Accept Prohibition Nomination.

Indianapolis, June 28.—The national prohibitionist convention will open here today. H. B. Metcalf of Rhode Island said that when a party of prohibitionists, of which he was one, called on General Miles in April, the general was evasive and wished the convention postponed until after the Democratic convention. This, he stated, had been his policy since that time. Metcalf said that in his opinion the nominee should make a definite statement of his position and unless General Miles made one they would vote against him.

Though it is said that General Miles has signified that he will accept the nomination if it be given him, when the letters are produced they show that this is only an inference, and the general up to this time has not committed himself.

PASSENGER TRAIN WRECKED.

Two Men Injured and Many Others Badly Shaken Up.

Billings, Mont., June 28.—Passenger Train No. 41 on the Burlington and Missouri River railroad was wrecked this side of Newcastle, Wyo., Monday, crashing in an open switch and colliding with a train of stock cars on the siding.

Larry Holden and a waiter named Kinney were injured. A great number of passengers were severely shaken up. The passenger engine and a box car were badly wrecked.

FOR A NEW ZION CITY.

Dowie Said to Have Bought Land Near Fort Montgomery, N. Y.

Highland Falls, N. Y., June 28.—John A. Dowie of Zion City, Ill., came here in a special train from New York Monday and according to reports purchased some land near Fort Montgomery for the establishment of a new Zion City. Dowie was accompanied by some officials of the West Shore railroad and several other gentlemen. After visiting the property the party returned to New York.

Man Accused of Murder Captured.

Jackson, Ky., June 28.—The sheriff's deputies have captured James Salyers, wanted for the murder of Mack White, and he is here. This ends the chase that has involved the feudists in several collisions the past week. Salyers was examined here and dismissed, the only suspicion against him being that the bloodhounds traced the scent to his house.

Frank Gotch Defeats James Parr.

Buffalo, N. Y., June 28.—Frank L. Gotch, champion catch-as-catch-can wrestler of the United States, last night defeated James Parr, the British wrestler, in two straight falls. Gotch had the advantage in height and strength and the great skill of Parr was of little avail.

Digestion isn't a mere chemical process alone. The walls of the stomach move against one another and grind, or "churn," the food. "FORCE" is already half digested and well milled. It gives these over-tried twentieth-century stomachs of ours a fair show.

Summary

There is a certain crisp, appetizing, delicious taste to the flakes of "FORCE" which creates a sensation you long to repeat.

That delicious taste is a sure sign that you are eating something which is going to do you good.

# MINNESOTA EDITORS AT WORLD'S FAIR

M. & ST. L. THE HIGHWAY OF  
THE NORTHWEST.

Banner Outing of the M. E. A.—Ded-  
ication of the Minnesota Building  
—Wonderland of Palace and Prod-  
ucts—The Committee Endorsed.

To Congressman Tawney for his  
personal efforts in our behalf.  
To Chas. S. Mitchell, superintendent  
of the Minnesota exhibits at the  
fair, who did all two men could do,  
even in the press of other special du-  
ties, to make the exposition visit hap-  
py and successful; and to his efficient  
secretary, Joe Whitney, for similar  
efforts.

To George L. Brown, Pullman con-  
ductor, for unremitting labor to make  
the life of everybody except himself a  
happy one.

To the Minnesota Type Foundry Co.,  
the McClellan Paper Co., the F. G.  
Leslie Paper Co., the Inland Type  
Foundry, for attractive souvenirs.

Lastly, but in respect of time and  
work in the editors' service, facile  
principles, the executive committee.

Minnesota's Display.  
Work of the Managers.

The Minnesota Board of Managers,  
as they are officially known, had a  
set purpose in the plan of each ex-  
hibit made at the fair. The Board is  
a small one, just three men, and  
each a trained and successful busi-  
ness man. Messrs. Conde Hamlin, J.  
M. Underwood and Theo. J. Hays  
seemed to have entered into this  
work with the same systematic thor-  
oughness that they are understood to  
enforce in their own business. They  
have evidently not wasted a dollar of  
the state's small appropriation and  
have made every penny count. The  
earliest and most important act of  
the board was the appointment of  
Mr. Chas. S. Mitchell as superintendent  
and executive officer, whose tireless  
and able efforts are warmly endorsed  
by the commissioners and all having  
to do with Minnesota's interests at the  
exposition. It is to be regretted both  
that the appropriation was not larger  
and that the people of the state did not  
take more of a personal interest in  
the state's exhibit. With one or two  
exceptions not one of the representa-  
tives of the great resources and in-  
dustries of Minnesota, has given any  
material assistance to the Board and  
practically every feature of the state's  
exhibits had to be bought and paid  
for, while in other states whole  
exhibits were supplied by large special  
interests.

The Minnesota Building.

The first intention of the Board  
was to erect a permanent building,  
one that could be taken back to the  
state, but the contractors and build-  
ers of Minnesota instead of helping  
to this end and taking an interest  
in the plan, submitted but two bids  
after long waiting and personal so-  
licitation, and they were nearly dou-  
ble the architect's estimate. Having,  
therefore, to abandon this idea of  
permanency, it was decided to put  
just as little money as possible in the  
building, saving as much as possible  
for the exhibits. The design of the  
building is classic and severely sim-  
ple. The finish is very plain, and as  
a whole it is either sharply con-  
demned for its plainness or is highly  
praised for its artistic consistency  
and beauty; there seems to be no  
middle ground of criticism. Those  
who most admire richly upholstered  
furniture and outward excess of  
adornment, condemn, while architects  
and students of art, enthusiastically  
praise. It is built with special refer-  
ence to the hot weather that is sup-  
posed to visit St. Louis in the mid-  
summer months, and certainly if  
there are any breezes, Minnesotans  
visiting the fair, will find them there.  
It is an arrangement, just a conven-  
ient and comfortable club house.  
There is the large front room, open-  
ing on three sides, through glass  
doors, to side corridors and a walled  
front porch. Large urns filled with  
flowering plants, break and give color  
to the whiteness of this wall, while  
large flat awnings extending from  
the house to the wall afford protec-  
tion from the afternoon sun. Be-  
sides the main room, there is a busi-  
ness office and check room with the  
postoffice, and waiting-rooms for wo-  
men and men with toilets off each,  
and a large room furnished for the  
convenience of those who bring their  
noon luncheon and wish a place to  
eat it. Every daily newspaper of the  
state and over one hundred of the  
weekly papers are kept on file, and  
what is of decided importance, pure  
ice water is always to be had. The  
State's nearest neighbors are Iowa,  
Massachusetts, Kansas, New York  
and Ohio, each of which has expend-  
ed from forty to one hundred thou-  
sand dollars in its building, while the  
contract for Minnesota's was but lit-  
tle over sixteen thousand dollars,  
which as it answers every needed  
purpose seems quite enough to put in  
a building that must practically be  
given away at the close of the fair.

Building Stone.

Of the department exhibits, taking  
them in their order from the state  
building, the first is found in the  
Palace of Mines and Metallurgy.  
This shows Minnesota's building  
stone and iron ores. On two sides is  
a low stone wall made of polished  
granites from the St. Cloud and Or-  
tonville districts. Kettle River Sand-  
stone, polished Mankato and Kasota  
marble and Twin City pressed brick,  
while a polished granite column 20  
feet high and weighing sixteen thou-  
sand pounds stands in the angle. On  
the other two sides, are walls twelve  
feet high, against which are placed  
seven faces of stone, each five by sev-  
en feet, showing cut granite, Wino-  
na stone, pipestone and Jasper, as if  
laid in the wall of a building.

Iron Ore, Mines and Docks.

Minnesota has but the mineral

to show—its iron, and this exhibit in-  
cludes samples of ore from the mines,  
the method of mining, how the ore is  
handled and how shipped by rail to  
Duluth, the greatest iron shipping  
port in the world. From one to four  
samples of the various grades of ore  
taken from every mine in the state  
that is in operation, are shown in a  
hundred large glass jars. There is a  
statistical chart of the output and  
two groups of photographs, three by  
ten feet in size showing every phase  
of mining. There is a model of the  
cars used in shipping from the mines,  
of a section of one of the great ore  
docks at Duluth and of the Fayal  
mine—the greatest producing iron  
mine on earth. This last model is  
eleven feet square, and shows even  
the minutest detail of this most fa-  
mous mine and the three processes of  
mining characteristic of the Minne-  
sota region—the open-pit, the mill-  
ing and the underground. In the  
center of the space is a beautiful  
model of Duluth city and harbor. On  
it is shown every building in the city,  
every elevator, dock, pier, bridge, car  
line, and mill. One hundred and thirty  
vessels, exact reproductions of the  
boats that make the harbor, are there  
and the whole model is covered, light-  
ed by electricity and viewed thru  
glass covered openings. No exhibit  
in the building attracts more atten-  
tion and more sight seers go inside  
of its space and it holds them longer  
than any other of its neighboring  
exhibits and this is the real test of  
its worth.

Education.

The next building is the Palace of  
Education and here in the most  
prominent position is Minnesota's  
booth. This exhibit is certainly a  
gem. A lady who is one of the most  
competent critics in the state, says  
that "Minnesota is far and away the  
most artistic in its arrangement, the  
most harmonious and dignified and  
the most beautiful as a picture, in  
the building." This may sound ex-  
travagant but even the exhibitors  
from other states freely admit that  
none excels Minnesota. The entire  
outside wall has a deep frieze in col-  
ors showing the University campus  
and buildings and the Agricultural  
college and buildings, while on the  
rear wall is another frieze of large  
photographs of these buildings. The  
"U" also has a cabinet filled with  
photographs, charts of statistics, etc.  
From the University down, the entire  
public school system of the state is  
shown, including the normals, the  
high and graded schools of St. Paul  
and Minneapolis and of the second-  
ary towns of the state, the state grad-  
ed schools, semi-graded and rural  
schools. Especial attention has been  
given to manual training and art  
work and it is all most systematically  
and effectively grouped. The booth  
itself is of oak in mission brown  
stain, the walls are of a deep blue  
burlap and in no least particular has  
anything been slighted or cheapened  
or any note of discord been allowed  
to creep in to mar its beauty, while  
every feature of the state's unrivaled  
school system is shown.

A Ruined Fish Exhibit.

This is not only the first time in  
the history of expositions that there  
has been a building devoted wholly to  
education, but for the first time there  
is a Forestry and Game and Fish  
building separate from the govern-  
ment plant. Here Minnesota's  
Board arranged for one of its most  
attractive displays. St. Louis is the  
very center of the district from which  
the state draws much the larger part  
of its summer tourist business. Fully  
75 per cent it is said, of those who  
come to the state to hunt and fish  
come from that section. The impor-  
tance of the game and fish depart-  
ment, can, therefore, be readily ap-  
preciated. Minnesota was one of  
three states to attempt a live fish  
display. Eighty-four lineal feet of  
aquaria were built and these are as  
fine as are in the building. The Ex-  
position Company agreed on its part  
to furnish refrigerated water free for  
the tanks. The exact location of the  
trout tanks was demanded so that  
the water supply might be regulated  
with regard to the temperature need-  
ed by the various species of fish  
shown. Without this assurance of re-  
frigerated water no state would have  
dreamed of trying to show live fish  
or fish culture, but it is not fur-  
nished. There are no refrigeration  
connections and the fish die almost  
as soon as transferred from the cool  
waters of the lakes and streams to  
the tepid water of the tanks. Pen-  
sylvania has ten thousand dollars in-  
vested in its fish displays, and Mis-  
souri as much more. Their tanks are  
practically empty of fish. Fortunate-  
ly Minnesota did not invest as much  
money by two-thirds, for when it  
took down a car of splendid pike,  
pickered, muskellonge and kindred fish,  
they lived only a few hours. The  
fish exhibitors as the saying is "went  
clear in the air" when they saw Min-  
nesota's fish. They said that they  
never before had seen such splendid  
specimens put on exhibition alive.

Fine Showing of Game.

The State's game exhibit is a clever  
conception. It is a scene in the  
northern pine woods in Minnesota.  
Built for a cyclorama, the fore-  
ground is a pine forest with birch  
openings, while you look back in the  
far distance to a beautiful lake scene.  
At one side are three splendid spec-  
imens of moose, a cow and two bucks,  
mounted as if coming through the  
timber. The leader has scented down  
game and stops with his head thrown  
high in the air. The second is hesi-  
tating, but the third is still on the  
run. On the other side of the scene  
are three red deer, one browsing, one  
lying down and one eating from the  
trees. A large caribou is in the fore-  
ground; there are also badgers, black  
bears, wolves, foxes, mink and game  
birds, owls and hawks, etc. The  
whole making a most effective scenic  
picture. It is wholly different from  
any other exhibit and receives great  
praise. Besides this scene is a small  
space where are shown mounted  
heads of moose and deer, mounted  
fish, etc., with maps and photographs.

Agriculture.

Three of Minnesota's exhibits are  
in the Palace of Agriculture. Agri-  
culture itself occupies a space sixty-  
two by fifty feet. It is a very credit-  
able exhibit, and the "Bread and But-  
ter State," the name won at Buffalo,  
is made secure. The central feature  
here is a great refrigerator case set  
on a platform about five feet high.

This platform is circling with steps  
at the front leading to the top and  
the sides are plates of glass back of  
which is shown the flower of the  
leading country mills, which also is  
shown in small silk sacks attractively  
arranged. The refrigerator itself  
is octagonal. The floor space is ten  
by eight feet and its triple plate  
glass sides rise fifteen feet above the  
platform. In this is to be a monu-  
mental piece in butter carrying out  
the domestic idea of Minnesota as the  
home state. There is a pedestal with  
nearly a life size figure at each cor-  
ner representing Agriculture, Dairy-  
ing, Education and Mining, and on  
the face of one side is a medallion of  
Gov. Van Sant. Crowning this ped-  
estal is the seated figure of a mother  
giving to her little child a piece of  
bread and butter. The entrance to  
the booth is an imposing triumphal  
archway twenty-eight feet high and  
crowned with banners and flags. The  
sides and face of the arch are of plate  
glass, two of them fourteen feet long  
and back of them on velvet are beau-  
tiful designs in grains and grasses.

Horticulture.

The one remaining department of  
the state's exhibits is horticulture.  
Minnesota has the strongest and  
largest horticultural society in the  
Union and the very fact that it has  
not for all this been known as a fruit  
producing state gives a special im-  
portance to this department. The in-  
stallation is in white and gold. It  
has a prominent position and while  
not large is very attractive and  
pretty. The display of fruit, both the  
small fruits and apples has won  
strong approval from horticulturists  
everywhere. The display is being  
very much strengthened and will be,  
of course, renewed and very much  
added to as the season advances. As  
it is at present, however, judging by  
the verdict of fruit raisers it should  
be a matter of pride to the state. It  
has indeed, been a surprise to the  
eastern and southern states to see the  
excellence, the beauty and color and  
the delicious flavor of the fruits  
raised in this northern climate.

Financial.

The Board states that financially it  
is in good condition. That when the  
fair closes the state will have paid  
for and own every exhibit shown, and  
that there will be enough money left  
to bring them all back to Minnesota.  
Not the least of the credit due to  
them is due to this fact.

H. M. WHEELLOCK,  
Fergus Falls, June 14, 1904.

Zopher W. Brooks celebrated his  
ninety-second birthday at Hancock,  
N. H., the other day. His father was  
an officer in the American army under  
Washington.

# SETTLER STABBED TO DEATH.

Man Who Did the Killing and His Wife  
Go Insane.

Bemidji, Minn., June 28.—In a  
drunken fight in the town of Buzzle,  
twenty miles north of Bemidji, Ole  
Bakken, a homesteader, was stabbed to  
death by Bersven Roan, a neighbor.  
Roan was arrested and brought to this  
city. He is crazed with grief over the  
deed, which he says was committed in  
self-defense.

His wife went violently insane when  
informed of her husband's crime, and  
eleven children, deprived of parental  
care, will become public charges pend-  
ing the trial.

# GAMBLING HOUSE ROBBED.

Texas Resort Loses Over Twelve Hun-  
dred Dollars.

Houston, Tex., June 28.—Thieves  
last night worked a successful scheme  
for the robbery of a gambling house.  
About 8 o'clock a piece of dynamite  
was exploded under a poker table and  
the crowd of 100 immediately made a  
rush for the exit. During the excite-  
ment some one grabbed the bank roll  
at the faro table, getting between  
\$1,200 and \$1,500.

# THREE MEN DROWNED.

Their Boat Accidentally Capsized in  
the Illinois River.

Joliet, Ill., June 28.—In the Illinois  
river near Morris, Harry Jacobs, Harry  
Broker and John Bloom were  
drowned by the accidental capsizing  
of a boat in which they were making  
a fishing trip. All were from Joliet.

Large line of fine cut glass at D. M.

# MAN HUNT CONTINUES

BLOODHOUNDS ARE NOW IN PUR-  
SUIT OF THE SLAYER OF  
SHERIFF HARRIS.

# HIDING IN RIVER BOTTOMS

SUSPECT SUPPOSED TO BE CON-  
CEALED NEAR BLACK RIVER  
IN WISCONSIN.

La Crosse, Wis., June 28.—John  
Smith, the slayer of Sheriff Harris,  
who was reported about to attempt the  
crossing of the Mississippi river at  
Winona, was turned south and is now  
believed to be in hiding in the Black  
river bottoms between North Bend and  
Holmen, this county. A man answer-  
ing his description appeared in a bar-  
ber shop on the outskirts of La Crosse  
on Saturday and forced the barber  
by threats to shave off his mustache  
in a hurry.

Superior and Duluth policemen and  
bloodhounds have taken up the chase.  
He is believed to be in a swamp at  
Merrell, Wis.

The town constable at Holmen has  
arrested a suspicious character there  
and he will be held for further infor-  
mation. He does not, however, close-  
ly answer the description of Smith.

# GENERAL SLOCUM DISASTER.

Coroner's Jury Inspects the Hulk of  
the Steamer.

New York, June 28.—The coroner's  
jury investigating the General Slocum  
disaster was taken to the hulk of the  
burned steamer at Erie basin Monday  
and after an inspection of the wreck  
and the examination of several wit-  
nesses proceeded in a patrol boat over  
the route followed by the steamer on  
the day of the ill-fated excursion.

Commander Winslow of the navy,  
who, with General Wilson of the army,  
was appointed to make federal inquiry  
into the disaster, was on board the  
Slocum when the coroner and his party  
arrived. Commander Winslow com-  
piled a description of the Slocum's in-  
terior as he found it. On board the  
Slocum, Coroner Berry led the way to  
the forward hatchway, a blackened  
opening in the midst of a pile of rot-  
ting life preservers, tangled iron and  
half burned barrels.

Terrance McManus, counsel for the  
Knickerbocker Steamboat company,  
was asked by the coroner if he would  
concede that that was the spot where  
the fire was first discovered, but de-  
clined, and Edwin Brandow, the assist-  
ant engineer, answered the question  
affirmatively.

Former Fire Marshal Thomas F.  
Freel said that he had examined the  
hold of the vessel on the day it was  
raised and found that the fire started  
in one of the barrels, as it was burned  
from the bottom and from inside, and  
not on the outside.

The inquest will probably be com-  
pleted today.

# GENERAL MILES RETICENT.

Has Not Said He Would Accept Pro-  
hibition Nomination.

Indianapolis, June 28.—The national  
Prohibition convention will open  
here today. H. B. Metcalf of Rhode  
Island said that when a party of Pro-  
hibitionists, of which he was one, called  
on General Miles in April, the gen-  
eral was evasive and wished the con-  
vention postponed until after the Dem-  
ocratic convention. This, he stated,  
had been his policy since that time.  
Metcalf said that in his opinion the  
nominee should make a definite state-  
ment of his position and unless Gen-  
eral Miles made one they would vote  
against him.

Though it is said that General Miles  
has signified that he will accept the  
nomination if it be given him, when  
the letters are produced they show  
that this is only an inference, and the  
general up to this time has not com-  
mitted himself.

# PASSENGER TRAIN WRECKED.

Two Men Injured and Many Others  
Badly Shaken Up.

Billings, Mont., June 28.—Passenger  
Train No. 41 on the Burlington and  
Missouri River railroad was wrecked  
this side of Newcastle, Wyo., Mon-  
day, crashing in an open switch and  
colliding with a train of stock cars  
on the siding.

Larry Holden and a waiter named  
Kinney were injured. A great number  
of passengers were severely shaken  
up. The passenger engine and a box  
car were badly wrecked.

# FOR A NEW ZION CITY.

Dowie Said to Have Bought Land Near  
Fort Montgomery, N. Y.

Highland Falls, N. Y., June 28.—  
John A. Dowie of Zion City, Ill., came  
here in a special train from New York  
Monday and according to reports pur-  
chased some land near Fort Montgom-  
ery for the establishment of a new  
Zion City. Dowie was accompanied by  
some officials of the West Shore rail-  
road and several other gentlemen. After  
visiting the property the party re-  
turned to New York.

# Man Accused of Murder Captured.

Jackson, Ky., June 28.—The sheriff's  
deputies have captured James Salyers,  
wanted for the murder of Mack White,  
and he is here. This ends the chase  
that has involved the feudists in sev-  
eral collisions the past week. Salyers  
was examined here and dismissed, the  
only suspicion against him being that  
the bloodhounds traced the scent to  
his house.

# Frank Gotch Defeats James Parr.

Buffalo, N. Y., June 28.—Frank L.  
Gotch, champion catch-as-catch-can  
wrestler of the United States, last  
night defeated James Parr, the British  
wrestler, in two straight falls. Gotch  
had the advantage in height and  
strength and the great skill of Parr  
was of little avail.

« Digestion isn't a mere  
chemical process alone.  
« The walls of the stom-  
ach move against one  
another and grind, or  
"churn," the food.  
« "FORCE" is already  
half digested and well  
milled. It gives these  
over-tried twentieth-cen-  
tury stomachs of ours a  
fair show.

Summary Fine

There is a certain crisp, appetizing,  
delicious taste to the flakes of "FORCE"  
which creates a sensation you long to  
repeat.  
That delicious taste is a sure sign that  
you are eating something which is going  
to do you good.
